REDACTED

Plaintiffs Ifeoma Adams, Halley Ascher, Gregory Asken, Melissa Barron, Kimberly Bennett, David Bernstein, Ron Blau, Tenisha Burgos, Kent Busek, Jennifer Chase, Rita Cornish, Nathan Croom, Lori Curtis, Jessica Decastro, Theresia Dillard, Alena Farrell, Jane Fitzgerald, Carroll Gibbs, Dori Gilels, Jason Grala, Ian Groves, Curtis Gunnerson, Tom Halverson, Curtis Harr, Andrew Hedlund, Gary Arthur Herr, John Hollingsworth, Carol Ann Kashishian, Elizabeth Kaufman, Robert Klingler, Kelly Klosterman, James Marean, Michelle McGinn, Rebecca Lynn Morrow, Edward Muscara, Stacey Nickell, Sophie O’Keefe-Zelman, Roger Olson, William Picotte, Whitney Porter, Cindy Prince, Janne Rice, Robert Rice, Jr., Frances Gammell-Roach, Darrel Senior, Meetesh Shah, Darcy Sherman, Erica Shoaf, Arthur Stukey, Kathleen Tawney, Jane Taylor, Keith Uehara, Michael Wick, and Phillip Young (“Plaintiffs”), on behalf of themselves and all others similarly situated (the “Classes” as defined below), upon personal knowledge as to the facts pertaining to themselves and upon information and belief as to all other matters, and based on the investigation of counsel, bring this class action for damages, injunctive relief, and other relief pursuant to federal antitrust laws and state antitrust, unfair competition, consumer protection, and unjust enrichment laws, and allege as follows:

NATURE OF ACTION

1. This lawsuit is brought as a proposed class action against Defendants Delphi Technologies PLC and Delphi Powertrain Systems, LLC (together, “Delphi”), Toyo Denso Co. Ltd., Weastec, Inc. (together, “Toyo Denso”)¹ (all as defined below, and collectively

¹ Plaintiffs entered into a settlement in this action with Toyo Denso on April 30, 2018. On June 21, 2018, the Court entered its order preliminarily approving the settlement. *See* Order Granting End-Payor Plaintiffs’ Motion for Preliminary Approval of Proposed Settlement with the Toyo

REDACTED

“Defendants”), Co-Conspirators² DENSO Corporation, DENSO International America, Inc. (together, “DENSO Co-Conspirators” or “DENSO”), Mitsubishi Electric Corporation, Mitsubishi Electric US Holdings, Inc., Mitsubishi Electric Automotive America, Inc. (collectively, “Mitsubishi Co-Conspirators” or “Mitsubishi”), Diamond Electric Mfg. Co., Ltd., Diamond Electric Mfg. Corporation (together, “Diamond Electric Co-Conspirators” or “Diamond Electric”), Hitachi Automotive Systems, Ltd., Hitachi Automotive Systems Americas, Inc. (together, “Hitachi Co-Conspirators” or “Hitachi”)³ and unnamed co-conspirators, manufacturers and/or suppliers of Ignition Coils (defined below) globally and in the United States, for engaging in a long-running conspiracy to unlawfully fix, artificially raise, maintain and/or stabilize prices, rig bids for, and allocate the market and customers in the United States for Ignition Coils. According to the United States Department of Justice (“DOJ”), Defendants’ and their co-conspirators’ conspiracy successfully targeted the United States automotive industry, raising prices for car manufacturers and consumers alike.

Denso Defendants and Provisional Certification of the Settlement Classes, *Ignition Coils*, No. 2:13-cv-01403 (E.D. Mich.), ECF No. 187.

² Plaintiffs entered into settlements with DENSO, Mitsubishi, and Diamond Electric. The Court subsequently entered orders and final judgments finally approving the settlements with DENSO, Mitsubishi, Diamond Electric, and Hitachi and dismissing these Defendants with prejudice. *Id.* at ECF Nos. 109, 118, 120, 168, 171, 172, 174-75, 212-13.

³ For the purposes of this Complaint, the terms “Hitachi Co-Conspirators” or “Hitachi” also includes the former Hitachi Automotive Systems Group of Hitachi, Ltd., as it existed prior to July 1, 2009, the former Hitachi Unisia Automotive, Ltd. and the former Tokico, Ltd. Plaintiffs previously named Hitachi as Defendants in this action. Plaintiffs subsequently entered into a settlement with Hitachi, which was finally approved by the Court on June 20, 2016. *See, e.g.*, Opinion and Order Granting Final Approval of Class Action Settlement, Case No. 2:13-cv-01403, ECF No. 109. For purposes of this Third Consolidated Amended Class Action Complaint, Hitachi is referred to as Co-Conspirators instead of Defendants.

REDACTED

2. “Ignition Coils” are part of the fuel ignition system of an automobile and release electric energy suddenly to ignite a fuel mixture.

3. Plaintiffs seek to represent all persons and entities who, during the period from and including January 1, 2000 through such time as the anticompetitive effects of the Defendants’ and their co-conspirators’ conduct ceased (the “Class Period”) purchased or leased a new vehicle in the United States not for resale which included one or more Ignition Coil(s) as a component part, which were manufactured or sold by the Defendants, any current or former subsidiary of the Defendants or any co-conspirator of the Defendants.

4. Defendants and their co-conspirators manufacture, market, and/or sell Ignition Coils throughout and into the United States. Defendants and their co-conspirators, agreed, combined, and conspired to fix, raise, maintain and/or stabilize prices, rig bids and allocate the market and customers in the United States for Ignition Coils.

5. The DOJ’s Antitrust Division is currently conducting a broad criminal investigation into illegal price-fixing and bid-rigging in the automotive parts industry. As part of its criminal investigation, the DOJ is seeking information about unlawful anticompetitive conduct in the market for a number of different but related automotive parts, and the Federal Bureau of Investigation (“FBI”) has participated in raids, pursuant to search warrants, carried out in the offices of a number of major competitors in the automotive parts industry. The automotive parts investigation is the largest criminal investigation the Antitrust Division has ever pursued, both in terms of its scope and its impact on American consumers and businesses. The ongoing cartel investigation of price-fixing and bid-rigging in the automotive parts industry has yielded more than \$2.5 billion in criminal fines. The European Commission Competition Authority

REDACTED

(“EC”) has also conducted dawn raids at the European offices of several automotive parts manufacturers.

6. Co-Conspirator DENSO Corporation agreed to plead guilty to a two-count criminal Information and to pay a \$78 million fine for participating in a combination and conspiracy to suppress and eliminate competition in the automotive parts industry by agreeing to rig bids for, and to fix, stabilize, and maintain the prices of, certain electronic control units (“ECUs”) and heater control panels (“HCPs”) sold to an automobile manufacturer in the United States and elsewhere from at least as early as January 2000 until at least February 2010. The combination and conspiracy engaged in by Co-Conspirator DENSO Corporation and its other co-conspirators was an unreasonable restraint of interstate and foreign trade and commerce in violation of the Sherman Antitrust Act, 15 U.S.C. § 1.

7. In addition to the fact that Co-Conspirator DENSO Corporation pleaded guilty and agreed on its own behalf and on behalf of its subsidiaries to cooperate in the government’s investigation, several of its high-ranking executives have pleaded guilty to criminal price-fixing in the automotive parts industry.

8. On March 26, 2012, the DOJ announced that Norihiro Imai, an executive of Co-Conspirator DENSO Corporation, agreed to serve one year and one day in a U.S. prison, pay a \$20,000 criminal fine, and plead guilty to a one-count criminal Information charging him with engaging in a conspiracy to rig bids for, and to fix, stabilize and maintain the prices of HCPs sold to customers in the United States and elsewhere.

9. On April 26, 2012, the DOJ announced that Makoto Hattori, an executive of Co-Conspirator DENSO Corporation, agreed to serve fourteen months in a U.S. prison, pay a \$20,000 criminal fine, and plead guilty to a one-count criminal Information charging him with

REDACTED

engaging in a conspiracy to rig bids for, and to fix, stabilize, and maintain the prices of HCPs sold to a customer in the United States and elsewhere.

10. On May 21, 2013, the DOJ announced that Yuji Suzuki, an executive of Co-Conspirator DENSO Corporation, agreed to serve sixteen months in a U.S. prison, pay a \$20,000 criminal fine, and plead guilty to a two-count criminal Information for his role in a conspiracy to rig bids for, and to fix, stabilize, and maintain the prices of ECUs and HCPs sold in the United States and elsewhere. Also on May 21, 2013, the DOJ announced that Hiroshi Watanabe an executive of Co-Conspirator DENSO Corporation, agreed to serve fifteen months in a U.S. prison, pay a \$20,000 criminal fine, and plead guilty to a one-count criminal Information for his role in a conspiracy to rig bids for, and to fix, stabilize, and maintain the prices of HCPs sold in the United States and elsewhere

11. On July 16, 2013, the DOJ announced that Co-Conspirator Diamond Electric Mfg. Co., Ltd., agreed to plead guilty and to pay a criminal fine of \$19 million for participating in a combination and conspiracy to suppress and eliminate competition in the automotive parts industry by agreeing to rig bids for, and to fix, stabilize, and maintain the price of, Ignition Coils sold to automobile manufacturers, including Ford Motor Company, which is headquartered in the United States, as well as Toyota, Fuji Heavy Industries, and certain of their subsidiaries, in the United States and elsewhere, from at least as early as January 2003 until at least February 2010. Significantly, in its annual business report for the period from April 1, 2011 to March 31, 2012, Diamond Electric Mfg. Co., Ltd. noted that North America sales “expanded significantly . . . due to the recovery of the North American automotive market and *an expansion in sales of products for Ford Motor Company.*” (emphasis added). The combination and conspiracy engaged in by Co-Conspirator Diamond Electric Mfg. Co., Ltd. and its co-conspirators was in unreasonable

REDACTED

restraint of interstate and foreign trade and commerce in violation of the Sherman Antitrust Act, 15U.S.C. § 1.

12. According to Co-Conspirator Diamond Electric Mfg. Co., Ltd.'s plea agreement, conspiratorial meetings and discussions took place in the United States and elsewhere, and the automotive parts that were the subject of the conspiracy were sold to Ford, Toyota, and Fuji Heavy Industries, and certain of their subsidiaries, affiliates and suppliers in the U.S. and elsewhere, by Co-Conspirator Diamond Electric's U.S. subsidiary, which is located in the Eastern District of Michigan.

13. On September 26, 2013, the DOJ announced that Co-Conspirator Hitachi Automotive Systems, Ltd. agreed to plead guilty and to pay a \$195 million criminal fine for its and its affiliate, Hitachi Automotive Systems Americas, Inc.'s, unlawful conduct in participating in a combination and conspiracy to suppress and eliminate competition in the automotive parts industry by agreeing to allocate the supply of, rig bids for, and fix, stabilize, and maintain the prices of, certain automotive products sold to automobile manufacturers, including, Nissan, Honda, General Motors, Ford, Toyota, Chrysler, and Fuji Heavy Industries, and certain of their subsidiaries, affiliates and suppliers, in the United States and elsewhere, from at least as early as January 2000 until at least February 2010. For purposes of the plea agreement between Co-Conspirator Hitachi Automotive Systems, Ltd. and the United States, "automotive parts" were defined to include, among other parts, Ignition Coils. Like Diamond Electric, Hitachi sold price-fixed automotive parts, including Ignition Coils, to automobile companies headquartered in the United States. These companies include Ford and General Motors. The combination and conspiracy engaged in by Co-Conspirator Hitachi Automotive Systems, Ltd. and its co-

REDACTED

conspirators was an unreasonable restraint of interstate and foreign trade and commerce in violation of the Sherman Antitrust Act, 15 U.S.C. § 1.

14. According to the plea agreement of Co-Conspirator Hitachi Automotive Systems Ltd., conspiratorial meetings and discussions took place in the United States and elsewhere, and the automotive parts that were the subject of the conspiracy were sold to Nissan, Honda, General Motors, Ford, Toyota, and others, and certain of their subsidiaries, affiliates and suppliers in the U.S. and elsewhere, by Hitachi Automotive Systems Americas, Inc., which is located in the Eastern District of Michigan.

15. Also on September 26, 2013, the DOJ announced that Co-Conspirator Mitsubishi Electric Corporation (“Mitsubishi Electric”) agreed to plead guilty and to pay a criminal fine of \$190 million for participating in a combination and conspiracy to suppress and eliminate competition in the automotive parts industry by agreeing to rig bids for, and to fix, stabilize, and maintain the price of, certain automotive parts sold to automobile manufacturers, including Ford, General Motors, Chrysler, Fuji Heavy Industries, Nissan, Honda, Toyota, and certain of their subsidiaries, in the United States and elsewhere, from at least as early as January 2000 until at least February 2010. “Automotive parts,” for purposes of the plea agreement, included, among other products, starter motors, alternators, and Ignition Coils. Like Diamond Electric and Hitachi, Mitsubishi Electric sold price-fixed automotive parts, including Ignition Coils, to automobile companies headquartered in the United States. These companies include Ford, General Motors, and Chrysler. The combination and conspiracy engaged in by Co-Conspirator Mitsubishi Electric and its co-conspirators was an unreasonable restraint of interstate and foreign trade and commerce in violation of the Sherman Antitrust Act, 15 U.S.C. § 1.

REDACTED

16. According to Co-Conspirator Mitsubishi Electric's plea agreement, conspiratorial meetings and discussions took place in the United States and elsewhere, and the automotive parts that were the subject of the conspiracy were sold to Ford, General Motors, Chrysler, Subaru, Honda, Nissan, and others, and certain of their subsidiaries, affiliates and suppliers in the U.S. and elsewhere, by Co-Conspirator Mitsubishi Electric's subsidiary Mitsubishi Electric Automotive America, Inc., which is located in the Eastern District of Michigan.

17. On January 31, 2014, the DOJ announced that Shigehiko Ikenaga, the former president of Diamond Electric, agreed to serve 16 months in a U.S. prison, pay a \$5,000 criminal fine and plead guilty to a one-count criminal Information charging him with participating in a conspiracy to fix prices of Ignition Coils installed in automobiles sold in the United States and elsewhere. Also on January 31, 2014, Tatsuo Ikenaga, the former vice-president of Diamond Electric and former president of Diamond Electric's U.S. subsidiary, agreed to serve 13 months in a U.S. prison, pay a \$5,000 criminal fine and plead guilty to a one-count criminal Information charging him with participating in a conspiracy to fix prices of Ignition Coils installed in automobiles sold in the United States and elsewhere.

18. On February 20, 2014, the DOJ announced that Kazuaki Fujitani, a former executive of Co-Conspirator DENSO Corporation, agreed to serve one year and one day in a U.S. prison and plead guilty to a one-count criminal Information charging him with obstruction of justice for deleting numerous e-mails and electronic documents upon learning the FBI was executing a search warrant on Co-Conspirator DENSO International America, Inc. in connection with the DOJ's investigation into a conspiracy to fix the prices of HCPs installed in automobiles sold in the United States and elsewhere.

REDACTED

19. On June 30, 2014, the DOJ announced that Satoru Horisaki, a former executive of Co-Conspirator DENSO Corporation, agreed to serve one year and one day in a U.S. prison, pay a \$20,000 criminal fine, and plead guilty to a one-count criminal Information charging him with participating in a conspiracy to agree upon bids and prices for, and allocate the supply of, automotive instrument panel clusters sold to Honda, in the United States and elsewhere.

20. On September 18, 2014, the DOJ announced that a federal grand jury returned a one-count Indictment against Takashi Toyokuni, Ken Funasaki, Kazunobu Tsunekawa and Tomiya Itakura of Co-Conspirator Hitachi Automotive Systems Ltd. for agreeing to allocate the supply of, rig bids for, and fix, stabilize and maintain the prices of, certain automotive parts sold to various automobile manufacturers such as, Ford, General Motors, Nissan, Toyota, and Honda, and others, and certain of their subsidiaries, in the United States and elsewhere. During the period covered by the Indictment, Takashi Toyokuni, Ken Funasaki, and Kazunobu Tsunekawa worked for Hitachi in the United States and Japan. For purposes of the Indictment, “automotive parts” included, among other parts, Ignition Coils.

21. Also on September 18, 2014, the DOJ announced that a federal grand jury returned a three-count Indictment against Atsushi Ueda, Minoru Kurisaki, and Hideyuki Saito, current and former executives of Co-Conspirator Mitsubishi Electric, for their participation in a conspiracy to fix the prices of certain automotive parts, including starter motors, alternators, and Ignition Coils. Count one charged Atsushi Ueda, Minoru Kurisaki, and Hideyuki Saito with participating in a conspiracy to suppress and eliminate competition in the automotive parts industry by agreeing to allocate the supply of, rig bids for, and fix, stabilize, and maintain the prices of, various automotive parts sold to Ford, General Motors, Chrysler, Fuji Heavy Industries, Nissan, Honda, and certain of their subsidiaries, in the United States and elsewhere.

REDACTED

Count two charged Minoru Kurisaki and Hideyuki Saito with knowingly conspiring to obstruct justice by destroying documents and corruptly persuading, and attempting to persuade others, to destroy documents related to an official proceeding, grand jury investigation, and U.S. agency investigation. Count three charged Hideyuki Saito with knowingly and corruptly persuading, or attempting to persuade, other employees of Mitsubishi Electric to destroy or conceal paper documents and delete electronic data that may contain evidence of antitrust crimes in the United States and elsewhere with the intent to impair the objects' availability and integrity for use in an official proceeding.

22. On April 23, 2015, the DOJ announced that Takashi Toyokuni, a former executive of Co-Conspirator Hitachi Automotive Systems Ltd., agreed to serve fifteen months in a U.S. prison, pay a \$20,000 criminal fine, and plead guilty to a one-count criminal Indictment charging him with participating in a conspiracy to agree upon bids and prices for, and allocate the supply of certain automotive parts, including Ignition Coils, in the United States and elsewhere.

23. In addition to the publicly disclosed facts concerning the Ignition Coils conspiracy, Plaintiffs uncovered evidence that Diamond Electric and Delphi engaged in a decade long conspiracy to unlawfully fix, raise, maintain and/or stabilize prices, rig bids, and allocate the market and customers for Ignition Coils. Starting in at least 2000, executives from Diamond Electric and Delphi met and agreed to respect each other's rights to certain Ignition Coils business. Thereafter, executives from the two manufacturers communicated regularly regarding RFQs (defined below) from OEMs including Ford, and agreed as to who should win the business.

REDACTED

24. For example, in or about June 2004 Diamond Electric's Mr. [REDACTED] met with Delphi's Mr. [REDACTED] regarding a Ford RFQ for the 3.5 Liter engine, known as the "Cyclone." Mr. [REDACTED] asked Mr. [REDACTED] to ensure that Delphi did not bid below \$5.00 for the RFQ. Delphi bid as Mr. [REDACTED] requested.

25. Defendants and their co-conspirators participated in a combination and conspiracy to suppress and eliminate competition in the automotive parts industry by agreeing to allocate the supply of, rig bids for, and fix, stabilize, and maintain the prices of, Ignition Coils sold to vehicle manufacturers and others in the United States. The combination and conspiracy engaged in by the Defendants and their co-conspirators was an unreasonable restraint of interstate and foreign trade and commerce in violation of the Sherman Antitrust Act, 15 U.S.C. § 1, and state antitrust, unfair competition, consumer protection and unjust enrichment laws.

26. As a direct result of the anticompetitive and unlawful conduct alleged herein, Plaintiffs and the Classes paid artificially inflated prices for Ignition Coils during the Class Period and have thereby suffered antitrust injury to their business or property.

JURISDICTION AND VENUE

27. Plaintiffs bring this action under Section 16 of the Clayton Act (15 U.S.C. § 26) to secure equitable and injunctive relief against Defendants for violating Section 1 of the Sherman Act (15 U.S.C. § 1). Plaintiffs also assert claims for actual and exemplary damages pursuant to state antitrust, unfair competition, consumer protection and unjust enrichment laws, and seek to obtain restitution, recover damages and secure other relief against the Defendants for violations of those state laws. Plaintiffs and the Classes also seek attorneys' fees, costs, and other expenses under federal and state law.

REDACTED

28. This Court has jurisdiction over the subject matter of this action pursuant to Section 16 of the Clayton Act (15 U.S.C. § 26), Section 1 of the Sherman Act (15 U.S.C. § 1), and Title 28, United States Code, Sections 1331 and 1337. This Court has subject matter jurisdiction of the state law claims pursuant to 28 U.S.C. §§ 1332(d) and 1367, in that: (i) this is a class action in which the matter or controversy exceeds the sum of \$5,000,000, exclusive of interests and costs, and in which some members of the proposed Classes are citizens of a state different from the Defendants, and (ii) Plaintiffs' state law claims form part of the same case or controversy as their federal claims under Article III of the United States Constitution.

29. Venue is proper in this District pursuant to Section 12 of the Clayton Act (15 U.S.C. § 22), and 28 U.S.C. §§ 1391 (b), (c), and (d), because a substantial part of the events giving rise to Plaintiffs' claims occurred in this District, a substantial portion of the affected interstate trade and commerce discussed below has been carried out in this District, and one or more of the Defendants reside, are licensed to do business in, are doing business in, had agents in, or are found or transact business in this District.

30. This Court has *in personam* jurisdiction over the Defendants because each, either directly or through the ownership and/or control of their subsidiaries, inter alia: (a) transacted business in the United States, including in this District; (b) directly or indirectly sold or marketed substantial quantities of Ignition Coils throughout the United States, including in this District; (c) had substantial aggregate contacts with the United States, including in this District; or (d) were engaged in an illegal price-fixing conspiracy that was directed at, and had a direct, substantial, reasonably foreseeable and intended effect of causing injury to, the business or property of persons and entities residing in, located in, or doing business throughout the United States, including in this District. The Defendants also conduct business throughout the United States,

REDACTED

including in this jurisdiction, and have purposefully availed themselves of the laws of the United States.

31. The Defendants engaged in conduct both inside and outside of the United States that caused direct, substantial and reasonably foreseeable and intended anticompetitive effects upon interstate commerce within the United States.

32. The activities of the Defendants and their co-conspirators directly targeted the United States Ignition Coils markets and were within the flow of, were intended to, and did have, a substantial effect on interstate commerce of the United States. In addition, Co-Conspirators DENSO, Diamond Electric, and Toyo Denso each participated in conspiratorial meetings and discussions located in the United States; each participated in price manipulation and market allocation for automotive parts installed in vehicles manufactured and sold in the United States; each coordinated their price fixing schemes and conspiratorial agreements with subsidiaries located in the United States; and each took further actions in furtherance of the conspiracy with employees and co-conspirators located in the United States.

33. Ignition Coils manufactured abroad by the Defendants and their co-conspirators and sold for use in vehicles in the United States are goods brought into the United States for sale, and therefore constitute import commerce. To the extent any Ignition Coils are purchased in the United States, and such Ignition Coils do not constitute import commerce, the Defendants' and their co-conspirators' unlawful activities with respect thereto, as more fully alleged herein during the Class Period, had, and continue to have, a direct, substantial and reasonably foreseeable effect on United States commerce. The anticompetitive conduct, and its effect on United States commerce described herein, proximately caused antitrust injury to Plaintiffs and members of the Classes in the United States.

REDACTED

34. By reason of the unlawful activities hereinafter alleged, the Defendants' and their co-conspirators' unlawful activities substantially affected commerce throughout the United States, causing injury to Plaintiffs and members of the Classes. The Defendants and their co-conspirators, directly and through their agents, engaged in activities affecting all states, to fix, raise, maintain and/or stabilize prices, rig bids and allocate the market and customers in the United States for Ignition Coils, which conspiracy unreasonably restrained trade and adversely affected the market for Ignition Coils.

35. The Defendants' and their co-conspirators' conspiracy and wrongdoing described herein adversely affected persons in the United States who purchased or leased a new vehicle in the United States not for resale which included one or more Ignition Coil(s).

PARTIES

Plaintiffs

36. Plaintiff Ifeoma Adams is a California resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

37. Plaintiff Halley Ascher is a District of Columbia resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

38. Plaintiff Gregory Asken is a Nevada resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

39. Plaintiff Melissa Barron is a California resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

40. Plaintiff Kimberly Bennett is an Arkansas resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

REDACTED

41. Plaintiff David Bernstein is a Minnesota resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

42. Plaintiff Ron Blau is a Massachusetts resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

43. Plaintiff Tenisha Burgos is a New York resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

44. Plaintiff Kent Busek is a North Dakota resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

45. Plaintiff Jennifer Chase is an Iowa resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

46. Plaintiff Rita Cornish is a Utah resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

47. Plaintiff Nathan Croom is a Nebraska resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

48. Plaintiff Lori Curtis is a Missouri resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

49. Plaintiff Jessica DeCastro is a Missouri resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

50. Plaintiff Theresia Dillard is a Mississippi resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

51. Plaintiff Alena Farrell is a Vermont resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

REDACTED

52. Plaintiff Jane Fitzgerald is a Vermont resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

53. Plaintiff Carroll Gibbs is a District of Columbia resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

54. Plaintiff Dori Gilels is a Montana resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

55. Plaintiff Jason Grala is a New York resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

56. Plaintiff Ian Groves is a New Mexico resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

57. Plaintiff Curtis Gunnerson is a Minnesota resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

58. Plaintiff Tom Halverson is an Arizona resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

59. Plaintiff Curtis Harr is a North Dakota resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

60. Plaintiff Andrew Hedlund is a South Carolina resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

61. Plaintiff Gary Arthur Herr is a Florida resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

62. Plaintiff John Hollingsworth is a California resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

REDACTED

63. Plaintiff Carol Ann Kashishian is a Wisconsin resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

64. Plaintiff Elizabeth Kaufman is a Florida resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

65. Plaintiff Robert Klingler is a Missouri resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

66. Plaintiff Kelly Klosterman is a North Dakota resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

67. Plaintiff James Marean is a Maine resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

68. Plaintiff Michelle McGinn is a Nevada resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

69. Plaintiff Rebecca Lynn Morrow is an Arizona resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

70. Plaintiff Edward Muscara is a New Hampshire resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

71. Plaintiff Stacey Nickell is a West Virginia resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

72. Plaintiff Sophie O'Keefe-Zelman is an Arizona resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

73. Plaintiff Roger Olson is a Michigan resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

REDACTED

74. Plaintiff William Picotte is a Washington resident who purchased at least one Ignition Coil indirectly from at least one Defendant while a resident of South Dakota.

75. Plaintiff Whitney Porter is a District of Columbia resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

76. Plaintiff Cindy Prince is a Hawaii resident who purchased at least one Ignition Coil indirectly from at least one Defendant while a resident of Oregon.

77. Plaintiff Janne Rice is a West Virginia resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

78. Plaintiff Robert Rice, Jr. is a West Virginia resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

79. Plaintiff Frances Gammell-Roach is a Rhode Island resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

80. Plaintiff Darrel Senior is a Kansas resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

81. Plaintiff Meetesh Shah is a California resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

82. Plaintiff Darcy Sherman is a Minnesota resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

83. Plaintiff Erica Shoaf is an Arizona resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

84. Plaintiff Arthur Stukey is a Vermont resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

REDACTED

85. Plaintiff Kathleen Tawney is a North Carolina resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

86. Plaintiff Jane Taylor is a Hawaii resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

87. Plaintiff Keith Uehara is a Hawaii resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

88. Plaintiff Michael Wick is a New Mexico resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

89. Plaintiff Phillip Young is a Tennessee resident who purchased at least one Ignition Coil indirectly from at least one Defendant.

Defendants and Co-Conspirators

90. When Plaintiffs refer to a corporate family or companies by a single name in the Complaint, they are alleging that one or more employees or agents of entities within that corporate family engaged in conspiratorial acts on behalf of every company in that family. The individual participants in the conspiratorial acts did not always know the corporate affiliation of their counterparts, nor did they distinguish between the entities within a corporate family. The individual participants entered into agreements on behalf of their respective corporate families. As a result, those agents represented the entire corporate family with respect to such conduct, and the corporate family was party to the agreements that those agents reached.

Delphi Defendants

91. Defendant Delphi Technologies PLC is a Jersey company with its principal place of business in London, England. Delphi Technologies PLC, through its predecessor subsidiaries and/or affiliates, manufactured, marketed and/or sold Ignition Coils that were sold and purchased

REDACTED

throughout the United States, including in this District, during the Class Period. On December 5, 2017, Delphi Automotive PLC⁴ completed a tax-free spin-off of Delphi Technologies PLC.

Upon information and belief, Delphi Technologies PLC retained certain of Delphi Automotive PLC's liabilities, including any and all liabilities relating to Delphi Automotive PLC's Ignition Coils business. Delphi Technologies PLC—directly and/or through its subsidiaries, which it wholly owns and/or controls—continues to manufacture and sell Ignition Coils throughout the United States.

92. Defendant Delphi Powertrain Systems, LLC is a Delaware limited liability company with its principal place of business in Troy, Michigan. It is an indirect subsidiary of and wholly owned and/or controlled by its parent, Delphi Technologies PLC. Delphi Powertrain Systems, LLC manufactures and sells Ignition Coils throughout the United States.

Toyo Denso Defendants

93. Defendant Toyo Denso Co. Ltd. is a Japanese Corporation with its principal place of business in Tokyo, Japan. Defendant Toyo Denso Co. Ltd. – directly and/or through its subsidiaries, which it wholly owned and/or controlled – manufactured, marketed and/or sold Ignition Coils that were sold and purchased throughout the United States, including in this District, during the Class Period.

94. Defendant Weastec Inc. is an Ohio corporation with its principal place of business in Hillsboro, Ohio. It is a subsidiary of and wholly owned and/or controlled by its parent, Toyo Denso Co. Ltd. Defendant Weastec, Inc. – directly and/or through its subsidiaries, which it wholly owned and/or controlled – manufactured, marketed and/or sold Ignition Coils that were

⁴ Delphi Automotive PLC was renamed Aptiv PLC.

sold and purchased throughout the United States, including in this District, during the Class Period. At all times during the Class Period, its activities in the United States were under the control and direction of its Japanese parent.

DENSO Co-Conspirators

95. Co-Conspirator DENSO Corporation is a Japanese corporation with its principal place of business in Kariya, Aichi Prefecture, Japan. Co-Conspirator DENSO Corporation – directly and/or through its subsidiaries, which it wholly owned and/or controlled – manufactured, marketed and/or sold Ignition Coils that were sold and purchased throughout the United States, including in this district, during the Class Period.

96. Co-Conspirator DENSO International America, Inc. is a Delaware corporation with its principal place of business in Southfield, Michigan. It is a subsidiary of and wholly owned and/or controlled by its parent, DENSO Corporation. Co-Conspirator DENSO International America, Inc. – directly and/or through its subsidiaries, which it wholly owned and/or controlled – manufactured, marketed and/or sold Ignition Coils that were sold and purchased throughout the United States, including in this district, during the Class Period. At all times during the Class Period, its activities in the United States were under the control and direction of its Japanese parent.

Diamond Electric Co-Conspirators

97. Co-Conspirator Diamond Electric Mfg. Co., Ltd. is a Japanese company with its principal place of business in Osaka, Japan. Diamond Electric Mfg. Co., Ltd. – directly and/or through its subsidiaries, which it wholly owned and/or controlled – manufactured, marketed and/or sold Ignition Coils that were purchased throughout the United States, including in this District, during the Class Period.

REDACTED

98. Co-Conspirator Diamond Electric Mfg. Corporation is a Michigan corporation with its principal place of business in Dundee, Michigan. It is a subsidiary of and wholly owned and/or controlled by its parent, Diamond Electric Mfg. Co., Ltd. Diamond Electric Mfg. Corporation manufactured, marketed and/or sold Ignition Coils that were purchased throughout the United States, including in this District, during the Class Period.

Mitsubishi Electric Co-Conspirators

99. Co-Conspirator Mitsubishi Electric Corporation is a Japanese corporation with its principal place of business in Tokyo, Japan. Co-Conspirator Mitsubishi Electric Corporation – directly and/or through its subsidiaries, which it wholly owned and/or controlled – manufactured, marketed and/or sold Ignition Coils that were sold and purchased throughout the United States, including in this District, during the Class Period.

100. Co-Conspirator Mitsubishi Electric US Holdings, Inc. is a Delaware corporation with its principal place of business in Cypress, California. It is a subsidiary of and wholly owned and/or controlled by its parent, Mitsubishi Electric Corporation. Co-Conspirator Mitsubishi Electric US Holdings, Inc. – directly and/or through its subsidiaries, which it wholly owned and/or controlled – manufactured, marketed and/or sold Ignition Coils that were sold and purchased throughout the United States, including in this District, during the Class Period. At all times during the Class Period, its activities in the United States were under the control and direction of its Japanese parent.

101. Co-Conspirator Mitsubishi Electric Automotive America, Inc. is a Delaware corporation with its principal place of business in Mason, Ohio. It is a subsidiary of and wholly owned and/or controlled by its parent, Mitsubishi Electric US Holdings. Co-Conspirator Mitsubishi Electric Automotive America, Inc. manufactured, marketed and/or sold Ignition Coils

REDACTED

that were sold and purchased throughout the United States, including in this District, during the Class Period. At all times during the Class Period, its activities in the United States were under the control and direction of its United States or Japanese parents.

Hitachi Co-Conspirators

102. Co-Conspirator Hitachi Automotive Systems, Ltd. is a Japanese corporation with its principal place of business in Tokyo, Japan. Hitachi Automotive Systems, Ltd. – directly and/or through its subsidiaries, which it wholly owned and/or controlled – manufactured, marketed and/or sold Ignition Coils that were sold and purchased throughout the United States, including in this District, during the Class Period.

103. Co-Conspirator Hitachi Automotive Systems Americas, Inc. is a Delaware corporation with its principal place of business in Harrodsburg, Kentucky. It is a subsidiary of and wholly owned and/or controlled by its parent, Hitachi Automotive Systems, Ltd. Hitachi Automotive Systems Americas, Inc. manufactured, marketed and/or sold Ignition Coils that were sold and purchased throughout the United States, including in this District, during the Class Period. At all times during the Class Period, its activities in the United States were under the control and direction of its Japanese parent.

AGENTS AND CO-CONSPIRATORS

104. Each Defendant acted as the principal of or agent for the other Defendant or co-conspirators with respect to the acts, violations, and common course of conduct alleged herein.

105. Various persons, partnerships, sole proprietors, firms, corporations and individuals not named as defendants in this lawsuit, and individuals, the identities of which are presently unknown, have participated as co-conspirators with the Defendants in the offenses

REDACTED

alleged in this Complaint, and have performed acts and made statements in furtherance of the conspiracy or in furtherance of the anticompetitive conduct.

106. Whenever in this Complaint reference is made to any act, deed or transaction of any corporation or limited liability entity, the allegation means that the corporation or limited liability entity engaged in the act, deed or transaction by or through its officers, directors, agents, employees or representatives while they were actively engaged in the management, direction, control or transaction of the corporation's or limited liability entity's business or affairs.

FACTUAL ALLEGATIONS

A. The Ignition Coil Industry

107. "Ignition Coils" are part of the fuel ignition system of an automobile and release electric energy suddenly to ignite a fuel mixture. Various types of Ignition Coils manufactured by Co-Conspirator Diamond Electric are shown below.

108. Ignition Coils are installed by original equipment manufacturers (“OEMs”) in new cars as part of the automotive manufacturing process.

109. For new cars, the OEMs – mostly large automotive manufacturers such as Ford Motor Company, Toyota, General Motors, etc. – purchase Ignition Coils directly from

REDACTED

Defendants and their co-conspirators. Ignition Coils may also be purchased by component manufacturers who then supply such systems to OEMs. These component manufacturers are also called “Tier 1 Manufacturers” in the industry. Tier 1 Manufacturers supply Ignition Coils directly to an OEM.

110. When purchasing Ignition Coils, OEMs issue Requests for Quotation (“RFQs”) to automotive parts suppliers on a model-by-model basis for model-specific parts. Automotive parts suppliers submit quotations, or bids, to OEMs in response to RFQs, and the OEMs usually award the business to the selected automotive parts supplier for the lifespan of the model, which is usually four to six years. Typically, the bidding process begins approximately three years prior to the start of production of a new model. OEMs procure Ignition Coils and other parts for U.S.-manufactured vehicles in the United States and elsewhere.

111. Defendants and their co-conspirators supplied Ignition Coils to OEMs for installation in vehicles manufactured and sold in the United States and elsewhere. Defendants and their co-conspirators manufactured Ignition Coils (a) in the United States for installation in vehicles manufactured and sold in the United States, (b) in Japan and elsewhere for export to the United States and installation in vehicles manufactured and sold in the United States, and (c) in Japan and elsewhere for installation in vehicles manufactured in Japan and elsewhere for export to and sale in the United States.

112. Plaintiffs and members of the proposed Classes purchased Ignition Coils indirectly from one or more of the Defendants or their co-conspirators. By way of example, an owner of a vehicle may indirectly purchase one or more Ignition Coil(s) from the Defendants or their co-conspirators as part of purchasing or leasing a new vehicle.

REDACTED

113. In 2001, Mitsubishi Electric obtained an 8-year deal to supply GM engines with 2 million Ignition Coils per year.

114. In 2002, DENSO Corporation was the sole supplier of the spark plug component of the ignition system for the vehicles manufactured by Toyota. In 2010, DENSO was the global leader and supplied 1 in every 4 ignition systems in vehicles with spark plugs.

115. In its 2002 Annual Report, DENSO highlighted that it captured the “leading global market share” for Ignition Coils.

116. In 2008, DENSO became just one of ten companies of 800 North American automotive parts suppliers that were named Chrysler’s “First Supplier of Choice,” securing its position as incumbent for a number of supplied parts.

117. In 2011, DENSO launched a direct Ignition Coil product segment that comprised 22 part numbers covering 28 million units in operation for vehicles manufactured by Toyota, Honda, General Motors and Ford models. For the overall Ignition Coil market, DENSO produced 60 part numbers in 2011 for Ford, General Motors, Nissan, Honda, Mazda and Toyota, covering more than 72 million units in operation.

B. The Structure and Characteristics of the Ignition Coils Market Render the Conspiracy More Plausible

118. The structure and other characteristics of the Ignition Coils market in the United States is conducive to a price-fixing agreement and has made collusion particularly attractive in this market. Specifically, the Ignition Coils market: (1) has high barriers to entry; and (2) has inelasticity of demand.

REDACTED

1. The Ignition Coils Market Has High Barriers to Entry

119. A collusive arrangement that raises product prices above competitive levels would, under basic economic principles, attract new entrants seeking to benefit from the supra-competitive pricing. Where, however, there are significant barriers to entry, new entrants are less likely to enter the market. Thus, barriers to entry help to facilitate the formation and maintenance of a cartel.

120. There are substantial barriers that preclude, reduce, or make more difficult entry into the Ignition Coils market. A new entrant into the business would face costly and lengthy start-up costs, including multi-million dollar costs associated with manufacturing plants and equipment, energy, transportation, distribution infrastructure, skilled labor, and long-standing customer relationships.

121. The Defendants and their co-conspirators own several patents related to the manufacture of Ignition Coils. For example, the Hitachi, DENSO, Mitsubishi, and Diamond Electric Co-Conspirators and the Toyo Denso Defendants each own at least two patents related to Ignition Coils for automotive vehicles. These patents place a significant and costly burden on potential new entrants, who must avoid infringing on the patents when entering the market with a new product.

122. In addition, OEMs cannot change Ignition Coil suppliers randomly after they choose one because the OEMs design the features of their vehicles so that the Ignition Coils it purchases for a vehicle are then integrated with the other components of the starting and charging systems of the particular vehicle model. Thus, Ignition Coil manufacturers and OEMs must agree on a design that is unique to a particular vehicle model. It would be difficult for a new market entrant to do so.

REDACTED

2. There is Inelasticity of Demand for Ignition Coils

123. “Elasticity” is a term used to describe the sensitivity of supply and demand to changes in one or the other. For example, demand is said to be “inelastic” if an increase in the price of a product results in only a small decline in the quantity sold of that product, if any. In other words, customers have nowhere to turn for alternative, cheaper products of similar quality, and so continue to purchase despite a price increase.

124. For a cartel to profit from raising prices above competitive levels, demand must be relatively inelastic at competitive prices. Otherwise, increased prices would result in declining sales, revenues and profits, as customers purchased substitute products or declined to buy altogether. Inelastic demand is a market characteristic that facilitates collusion, allowing producers to raise their prices without triggering customer substitution and lost sales revenue.

125. Demand for Ignition Coils is highly inelastic. Demand for Ignition Coils is inelastic because there are no close substitutes for these products. In addition, customers must purchase Ignition Coils as an essential part of a vehicle, even if the prices are kept at a supra-competitive level.

C. Government Investigations

126. A globally coordinated antitrust investigation is taking place in the United States, Europe, Canada and Japan, aimed at suppliers of automotive parts in general, and Ignition Coils in particular. A Japan Fair Trade Commission (“JFTC”) official told a leading legal publication that the international automotive parts investigation would continue to widen because the automotive industry as a whole comprises many sub-industries. He characterized the investigation being conducted by the international antitrust authorities as “large and broad,” and he declined to deny that this “would be history’s largest case.”

REDACTED

127. The probe originated in Europe as the result of several European OEMs coming together to bring a complaint to the European Commission (“EC”). The EC and the FBI have executed surprise raids at the European and U.S. offices of several auto parts manufacturers, including certain Defendants and their co-conspirators, as part of an investigation into anticompetitive conduct related to the manufacturing and sale of automotive parts.

128. On February 8, 2010, the EC executed surprise raids at the European offices of certain automotive parts makers. The DOJ has confirmed that its automotive parts investigation is the largest criminal investigation that the Antitrust Division has ever pursued, both in terms of its scope and the potential volume of commerce affected by the illegal conduct. The DOJ has levied more than \$2.5 billion in criminal fines against various automotive parts manufacturers.

129. In February 2010, Japan’s Fair Trade Commission raided the Tokyo offices of DENSO Corporation as part of an expansive investigation into collusion in the automotive parts industry dating back to at least 2000.

130. The JFTC raided offices of certain co-conspirators as part of the spreading investigation into suspected price fixing on automotive parts. According to its 2011 Annual Report, DENSO Corporation was investigated on July 20, 2011 at various locations, including in Kariya, Aichi and some other sales branches in Japan. And according to its 2011 Annual Report, Mitsubishi Electric has been subject to investigations conducted by the JFTC since July 2011.

131. The DOJ has stated that it is conducting an investigation of potential antitrust activity and coordinating its investigation with antitrust regulators in Europe. “The antitrust division is investigating the possibility of anticompetitive cartel conduct of automotive electronic component suppliers,” Justice Department Spokeswoman Gina Talamona said.

REDACTED

132. Indeed, on February 23, 2010, around the same time as the raids by the Japanese and European competition authorities, investigators from the FBI raided three Detroit-area Japanese auto parts makers as part of a federal antitrust investigation. The FBI executed warrants and searched the offices of these companies, including DENSO Corporation's subsidiary in Southfield, Michigan. Special Agent Sandra Berchtold said the affidavits supporting issuance of the warrants were sealed in federal court.

133. To obtain search warrants, the United States was legally required to have probable cause, accepted by a magistrate, to believe that it would obtain evidence of an antitrust violation as a result of executing the search warrant – that is, the United States had to have evidence sufficient to warrant a person of reasonable caution to believe that raiding the offices of a seemingly lawful business would uncover evidence of antitrust violations and that claimed evidence must have been examined and accepted by a magistrate. That belief, which was recounted in sworn affidavits or testimony, must be grounded on reasonably trustworthy information.

Co-Conspirator Diamond Electric Mfg. Co., Ltd. Pleads Guilty to Price-Fixing Certain Automotive Parts

134. On July 16, 2013, the DOJ announced that Co-Conspirator Diamond Electric Mfg. Co., Ltd. agreed to pay a \$19 million criminal fine and plead guilty to a one-count criminal Information charging it with participating in a conspiracy to suppress and eliminate competition by agreeing to rig bids for, and to fix, stabilize, and maintain the prices of Ignition Coils sold to Ford Motor Company, Toyota, Fuji Heavy Industries, and certain of their subsidiaries in the United States and elsewhere, from at least as early as July 2003 until at least February 2010 in violation of the Sherman Antitrust Act, 15 U.S.C. § 1.

REDACTED

135. According to the Information filed, Co-Conspirator Diamond Electric Mfg. Co. and its co-conspirators carried out the Ignition Coils conspiracy by:

- (a) participating in meetings, conversations, and communications in the United States and elsewhere to discuss the bids and price quotations to be submitted to automobile manufacturers in the United States and elsewhere;
- (b) agreeing, during those meetings, conversations, and communications, on bids and price quotations to be submitted to automobile manufacturers in the United States and elsewhere;
- (c) agreeing, during those meetings, conversations, and communications, to allocate the supply of Ignition Coils sold to automobile manufacturers in the United States and elsewhere on a model-by-model basis;
- (d) agreeing, during those meetings, conversations, and communications, to coordinate price adjustments requested by automobile manufacturers in the United States and elsewhere;
- (e) submitting bids, price quotations, and price adjustments to automobile manufacturers in the United States and elsewhere in accordance with the agreements reached;
- (f) selling Ignition Coils to automobile manufacturers in the United States and elsewhere at collusive and noncompetitive prices;
- (g) accepting payment for Ignition Coils sold to automobile manufacturers in the United States and elsewhere at collusive and noncompetitive prices;
- (h) engaging in meetings, conversations, and communications in the United States and elsewhere for the purpose of monitoring and enforcing adherence to the agreed-upon bid-rigging and price-fixing scheme; and

REDACTED

(i) employing measures to keep their conduct secret, including but not limited to using code names and meeting at remote locations.

136. In the press release announcing the fine against Diamond Electric Mfg. Co. Ltd., Robert D. Foley III, Agent in Charge, FBI Detroit Division said “[t]hose who engage in price fixing, bid rigging and other fraudulent schemes harm the automotive industry by driving up costs for vehicle makers and buyers.”

Co-Conspirator Hitachi Automotive Systems, Ltd. Pleads Guilty to Price-Fixing Certain Automotive Parts

137. On September 26, 2013, the DOJ announced that Co-Conspirator Hitachi Automotive Systems, Ltd. agreed to pay a \$195 million criminal fine and to plead guilty to a one-count criminal Information charging it with participating in a conspiracy to suppress and eliminate competition in the automotive parts industry by agreeing to allocate the supply of, rig bids for, and to fix, stabilize, and maintain the prices of certain automotive parts, including Ignition Coils, sold to Nissan, Honda, General Motors, Ford Motor Company, Toyota, Chrysler, Fuji Heavy Industries, and certain of their subsidiaries in the United States and elsewhere from at least as early as January 2000 and continuing until at least February 2010 in violation of the Sherman Act, 15 U.S.C. § 1. For purposes of Hitachi’s plea agreement, “automotive parts” is defined to include, among other automotive parts, Ignition Coils.

138. According to the Information filed, Co-Conspirator Hitachi Automotive Systems, Ltd. and its co-conspirators carried out the Ignition Coils conspiracy by:

(a) participating in meetings, conversations, and communications in the United States and elsewhere to discuss the bids and price quotations to be submitted to automobile manufacturers in the United States and elsewhere;

REDACTED

(b) agreeing, during those meetings, conversations, and communications, on bids and price quotations to be submitted to automobile manufacturers in the United States and elsewhere;

(c) agreeing, during those meetings, conversations, and communications, to allocate the supply of automotive parts, including Ignition Coils, sold to automobile manufactures in the United States and elsewhere;

(d) agreeing, during those meetings, conversations, and communications, to coordinate price adjustments requested by automobile manufacturers in the United States and elsewhere;

(e) submitting bids, price quotations, and price adjustments to automobile manufacturers in the United States and elsewhere in accordance with the agreements reached;

(f) selling automotive parts, including Ignition Coils, to automobile manufacturers in the United States and elsewhere at collusive and noncompetitive prices;

(g) accepting payment for automotive parts, including Ignition Coils, sold to automobile manufacturers in the United State and elsewhere at collusive and noncompetitive prices;

(h) engaging in meetings, conversations, and communications in the United States and elsewhere for the purpose of monitoring and enforcing adherence to the agreed-upon bid-rigging and price-fixing scheme; and

(i) employing measures to keep their conduct secret, including, but not limited to, using code names and meeting at remote locations

REDACTED

Co-Conspirator Mitsubishi Electric Corporation Pleads Guilty to Price-Fixing

139. On September 26, 2013, the DOJ announced that Co-Conspirator Mitsubishi Electric Corporation agreed to pay a \$190 million criminal fine and plead guilty to a one-count Information charging it with participating in a combination and conspiracy to suppress and eliminate competition in the automotive parts industry by agreeing to rig bids for, and to fix, stabilize, and maintain the prices of, certain automotive parts, including Ignition Coils, sold to automobile manufacturers, including Ford Motor Company, General Motors, Chrysler, Fuji Heavy Industries, Nissan, Honda, and certain of their subsidiaries in the United States and elsewhere, from at least as early as January 2000 through at least February 2010, in violation of the Sherman Antitrust Act, 15 U.S.C. § 1. For purposes of Mitsubishi Electric's plea agreement, "automotive parts" are defined to include, among other parts, Ignition Coils.

140. According to the Information filed, Co-Conspirator Mitsubishi Electric and its co-conspirators carried out the automotive parts combination and conspiracy by, among other things, the following:

(a) participating in meetings, conversations, and communications in the United States and elsewhere to discuss the bids and price quotations to be submitted to automobile manufacturers in the United States and elsewhere;

(b) agreeing, during those meetings, conversations, and communications, on bids and price quotations to be submitted to automobile manufacturers in the United States and elsewhere;

(c) agreeing, during those meetings, conversations, and communications, to allocate the supply of certain automotive parts, including Ignition Coils, sold to automobile manufacturers in the United States and elsewhere;

REDACTED

(d) agreeing, during those meetings, conversations, and communications, to coordinate price adjustments requested by automobile manufacturers in the United States and elsewhere;

(e) submitting bids, price quotations, and price adjustments to automobile manufacturers in the United States and elsewhere in accordance with the agreements reached;

(f) selling certain automotive parts, including Ignition Coils, to automobile manufacturers in the United States and elsewhere at collusive and noncompetitive prices;

(g) accepting payment for certain automotive parts, including Ignition Coils, sold to automobile manufacturers in the United States and elsewhere at collusive and noncompetitive prices;

(h) engaging in meetings, conversations, and communications in the United States and elsewhere for the purpose of monitoring and enforcing adherence to the agreed-upon bid-rigging and price-fixing scheme;

(i) employing measures to keep their conduct secret, including, but not limited to, using code names and meeting at remote locations.

D. Likely Existence of a Cooperating Defendant

141. The Antitrust Criminal Penalty Enhancement and Reform Act (“ACPERA”) provides leniency benefits for a participant in a price-fixing conspiracy that voluntarily discloses conduct to the Department of Justice. In most recent cases in which guilty pleas for price-fixing conduct have been obtained, there has been a cooperating party that has been accepted into the DOJ’s ACPERA program as an “amnesty applicant.” One of the leniency benefits for a conspirator that is accepted into the ACPERA program is that it is not charged with a criminal offense and is not required to plead guilty to criminal charges.

REDACTED

142. In light of the guilty pleas in this case, in related automotive parts antitrust cases and the DOJ's ongoing investigation into the industry, it is reasonable for this Court to infer that there is an ACPERA "amnesty applicant" in this case.

E. Additional Criminal Pleadings in Related Markets in the Automotive Parts Industry

143. On September 29, 2011, the DOJ announced that Furukawa Electric Co. Ltd. agreed to plead guilty and to pay a \$200 million criminal fine for its role in a criminal price-fixing and bid-rigging conspiracy involving the sale of automotive wire harnesses and related products to automobile manufacturers.

144. In the press release announcing the fine against Furukawa Electric Co. Ltd., Sharis A. Pozen, then the Acting Assistant Attorney General in charge of the Department of Justice's Antitrust Division, said that "[a]s a result of this international price-fixing and bid-rigging conspiracy, automobile manufacturers paid noncompetitive and higher prices for parts in cars sold to U.S. consumers." Ms. Pozen also stated that "[t]his cartel harmed an important industry in our nation's economy, and the Antitrust Division with the Federal Bureau of Investigation will continue to work together to ensure that these kinds of conspiracies are stopped." The press release also quoted FBI's Special Agent in Charge Andrew G. Arena, who said that "[w]hen companies partner to control and price fix bids or contracts, it undermines the foundation of the United States' economic system," and that "[t]he FBI is committed to aggressively pursuing any company involved in antitrust crimes."

145. On January 30, 2012, the DOJ announced that Yazaki Corporation agreed to plead guilty and to pay a \$470 million criminal fine and Co-Conspirator DENSO Corporation agreed to plead guilty and to pay a \$78 million criminal fine for their respective involvement in multiple

REDACTED

price-fixing and bid-rigging conspiracies in the sale of automotive parts to automobile manufacturers in the United States. According to the three-count criminal Information filed against Yazaki, it engaged in three separate conspiracies in violation of the Sherman Act, 15 U.S.C. § 1: (i) to rig bids for and to fix, stabilize, and maintain the prices of, automotive wire harnesses and related products sold to certain automobile manufactures in the United States and elsewhere from at least as early as January 2000 and continuing until at least February 2010; (ii) to rig bids for and to fix, stabilize, and maintain the prices of, instrument panel clusters sold to certain automobile manufactures in the United States and elsewhere from at least as early as December 2002 until at least February 2010; and (iii) to fix, stabilize, and maintain the prices of fuel senders sold to an automobile manufacture in the United States and elsewhere. According to the two-count felony charge against Co-Conspirator DENSO Corporation, it engaged in conspiracies to rig bids for, and to fix, stabilize, and maintain the prices of, ECUs and HCPs sold to an automobile manufacturer in the United States and elsewhere from at least as early as March 2004 and continuing until at least February 2010.

146. In the press release announcing the fines against Yazaki Corporation, its executives, and Co-Conspirator DENSO Corporation, Ms. Pozen vowed to continue the investigation into “pernicious cartel conduct that results in higher prices to American consumers” In the same press release, Special Agent in Charge Andrew G. Arena said that “[t]his criminal activity has a significant impact on the automotive manufacturers in the United States, Canada, Japan and Europe and has been occurring for at least a decade. The conduct had also affected commerce on a global scale in almost every market where automobiles are manufactured and/or sold[.]”

REDACTED

147. Ms. Pozen said there is no doubt **consumers** were hurt financially by the automotive wire harness price-fixing conspiracy. She further stated: “By rigging bids on wiring harnesses . . . the three companies inflated what some of their auto manufacturer clients paid, and indirectly, what consumers paid for some cars.”

148. On March 26, 2012, the DOJ announced that Norihiro Imai, an executive of Co-Conspirator DENSO Corporation, agreed to serve one year and one day in a U.S. prison, pay a \$20,000 criminal fine, and plead guilty to a one-count criminal Information charging him with engaging in a conspiracy to rig bids for, and to fix, stabilize and maintain the prices of HCPs sold to customers in the United States and elsewhere.

149. On April 3, 2012, the DOJ announced that G.S. Electech, Inc. agreed to plead guilty and to pay a \$2.75 million criminal fine for its role in a conspiracy to rig bids for, and to fix, stabilize, and maintain the prices of, speed sensor wire assemblies used on antilock brake systems sold to an automobile manufacturer in the United States and elsewhere.

150. On April 23, 2012, the DOJ announced that Fujikura Ltd. agreed to plead guilty and to pay a \$20 million criminal fine for its role in a conspiracy to rig bids for, and to fix, stabilize, and maintain the prices of, automotive wire harnesses and related products sold to an automobile manufacturer in the United States and elsewhere.

151. On April 26, 2012, the DOJ announced that Makoto Hattori, an executive of Co-Conspirator DENSO Corporation, agreed to serve fourteen months in a U.S. prison, pay a \$20,000 criminal fine, and plead guilty to a one-count criminal Information charging him with engaging in a conspiracy to rig bids for, and to fix, stabilize, and maintain the prices of HCPs sold to a customer in the United States and elsewhere.

REDACTED

152. On June 6, 2012, the DOJ announced that Autoliv Inc. agreed to plead guilty to a two-count criminal Information and to pay a \$14.5 criminal fine for its involvement in a combination and conspiracy to suppress competition in the automotive parts industry by (i) agreeing to rig bids for, and to fix, stabilize, and maintain the prices of, certain seatbelts sold to a Japanese automobile manufacturer; and (ii) agreeing to rig bids for, and to fix, stabilize, and maintain the prices of, certain seatbelts, airbags, and/or steering wheels sold to a Japanese automobile manufacturer.

153. On July 30, 2012, the DOJ announced that TRW Deutschland Holding GmbH agreed to plead guilty and to pay a \$5.1 million criminal fine for its involvement in a combination and conspiracy, through its employees, including high level employees of its wholly-owned subsidiaries, to suppress and eliminate competition in the automotive parts industry by agreeing to rig bids for, and to fix, stabilize, and maintain the prices of seatbelts, airbags and steering wheels sold to two German automobile manufacturers in the United States and elsewhere.

154. On August 28, 2012, the DOJ announced that Nippon Seiki Co. Ltd. agreed to plead guilty and to pay a \$1 million criminal fine for its involvement in a combination and conspiracy to suppress competition in the automotive parts industry by agreeing to rig bids for, and to fix, stabilize, and maintain the prices of, instrument panel clusters sold to an automobile manufacturer in in the United States and elsewhere.

155. On October 30, 2012, the DOJ announced that Tokai Rika Co. Ltd. agreed to plead guilty and to pay a \$17.7 million criminal fine for its involvement in a conspiracy to rig bids for, and to fix, stabilize, and maintain the prices of, HCPs sold to Toyota Motor Corporation and Toyota Motor Engineering & Manufacturing North America, Inc. in the United States and

REDACTED

elsewhere. Tokai Rika also agreed to plead guilty to a charge of obstruction of justice related to the investigation of the antitrust violation.

156. On February 15, 2013, Scott Hammond, the Deputy Assistant Attorney General in the DOJ's Antitrust Division, discussed the DOJ's ongoing automotive parts investigation in a Thomson Reuters article. He said "[t]he investigation is broader than what we've announced so far [The investigation] is still very much ongoing, but it already appears to be the biggest criminal antitrust investigation that we've ever encountered. *I say the biggest with respect to the impact on U.S. businesses and consumers, and the number of companies and executives that are subject to the investigation.*" (emphasis added).

157. On May 21, 2013, the DOJ announced that Yuji Suzuki, an executive of Co-Conspirator DENSO Corporation, agreed to serve sixteen months in a U.S. prison, pay a \$20,000 criminal fine, and plead guilty to a two-count criminal Information for his role in a conspiracy to rig bids for, and to fix, stabilize, and maintain the prices of ECUs and HCPs sold in the United States and elsewhere. Also on May 21, 2013, the DOJ announced that Hiroshi Watanabe an executive of Co-Conspirator DENSO Corporation, agreed to serve fifteen months in a U.S. prison, pay a \$20,000 criminal fine, and plead guilty to a one-count criminal Information for his role in a conspiracy to rig bids for, and to fix, stabilize, and maintain the prices of HCPs sold in the United States and elsewhere.

158. On July 16, 2013, the DOJ announced that Diamond Electric Mfg. Co. Ltd. agreed to plead guilty and to pay a \$19 million criminal fine for its involvement in the conspiracy alleged herein.

159. On July 18, 2013, Panasonic Corporation agreed to plead guilty and to pay a \$45.8 million criminal fine for its role in a conspiracy to fix prices of various automotive parts

REDACTED

including high intensity discharge (“HID”) ballasts, switches and steering angle sensors installed in automobiles sold in the United States and elsewhere.

160. On September 26, 2013, nine Japanese automotive suppliers, including Co-Conspirators Hitachi Automotive Systems Ltd. and Mitsubishi Electric, agreed to plead guilty to conspiracy charges and pay more than \$740 million in criminal fines for their roles in rigging the prices of more than 30 different products:

(a) Co-Conspirator Hitachi Automotive Systems Ltd. agreed to plead guilty and pay a \$195 million criminal fine for its participation in a conspiracy to rig bids for, and to fix, stabilize and maintain the prices of automotive parts, including, among others parts, Ignition Coils;

(b) Mitsuba Corporation agreed to plead guilty and to pay a \$135 million criminal fine for its participation in a conspiracy to rig bids for, and to fix, stabilize and maintain the prices of certain automotive parts sold to automobile manufacturers in the United States and elsewhere. Mitsuba also agreed to plead guilty to one count of obstruction of justice because of the company’s efforts to destroy evidence ordered by a high-level U.S.-based executive after learning of the U.S. investigation of collusion in the automotive parts industry;

(c) Co-Conspirator Mitsubishi Electric Corporation agreed to plead guilty and pay a \$190 million criminal fine for its participation in a conspiracy to rig bids for, and to fix, stabilize and maintain the prices of certain automotive parts, including among other parts, Ignition Coils, sold to automobile manufacturers in the United States and elsewhere;

(d) Mitsubishi Heavy Industries Ltd. agreed to plead guilty and to pay a \$14.5 million criminal fine for its participation in a conspiracy to rig bids for, and to fix, stabilize and maintain the prices of compressors and condensers sold to automobile manufacturers in the

REDACTED

United States and elsewhere;

(e) T.RAD Co. Ltd. agreed to plead guilty and to pay a \$13.75 million criminal fine for its participation in a conspiracy to rig bids for, and to fix, stabilize and maintain the prices of radiators and automatic transmission fluid warmers (“ATF warmers”) sold to automobile manufacturers in the United States and elsewhere;

(f) Valeo Japan Co. Ltd. agreed to plead guilty and to pay a \$13.6 million criminal fine for its participation in a conspiracy to allocate the supply of, rig bids for, and to fix, stabilize and maintain the prices of air conditioning systems sold to automobile manufacturers in the United States and elsewhere;

(g) JTEKT Corporation agreed to plead guilty and to pay a \$103.27 million criminal fine for its participation in a conspiracy to allocate markets, to rig bids for, and to fix, stabilize and maintain the prices of bearings and electric powered steering assemblies sold to automobile manufacturers in the United States and elsewhere;

(h) NSK Ltd. agreed to plead guilty and to pay a \$68.2 million criminal fine for its participation in a conspiracy to allocate markets, to rig bids for, and to fix, stabilize and maintain the prices of bearings sold to an automobile manufacturer in the United States and elsewhere; and

(i) Yamashita Rubber Co. Ltd. agreed to plead guilty and to pay a \$11 million criminal fine for its participation in a conspiracy to rig bids for, and to fix, raise and maintain the prices of automotive anti-vibration rubber products sold in the United States and elsewhere to automobile manufacturers.

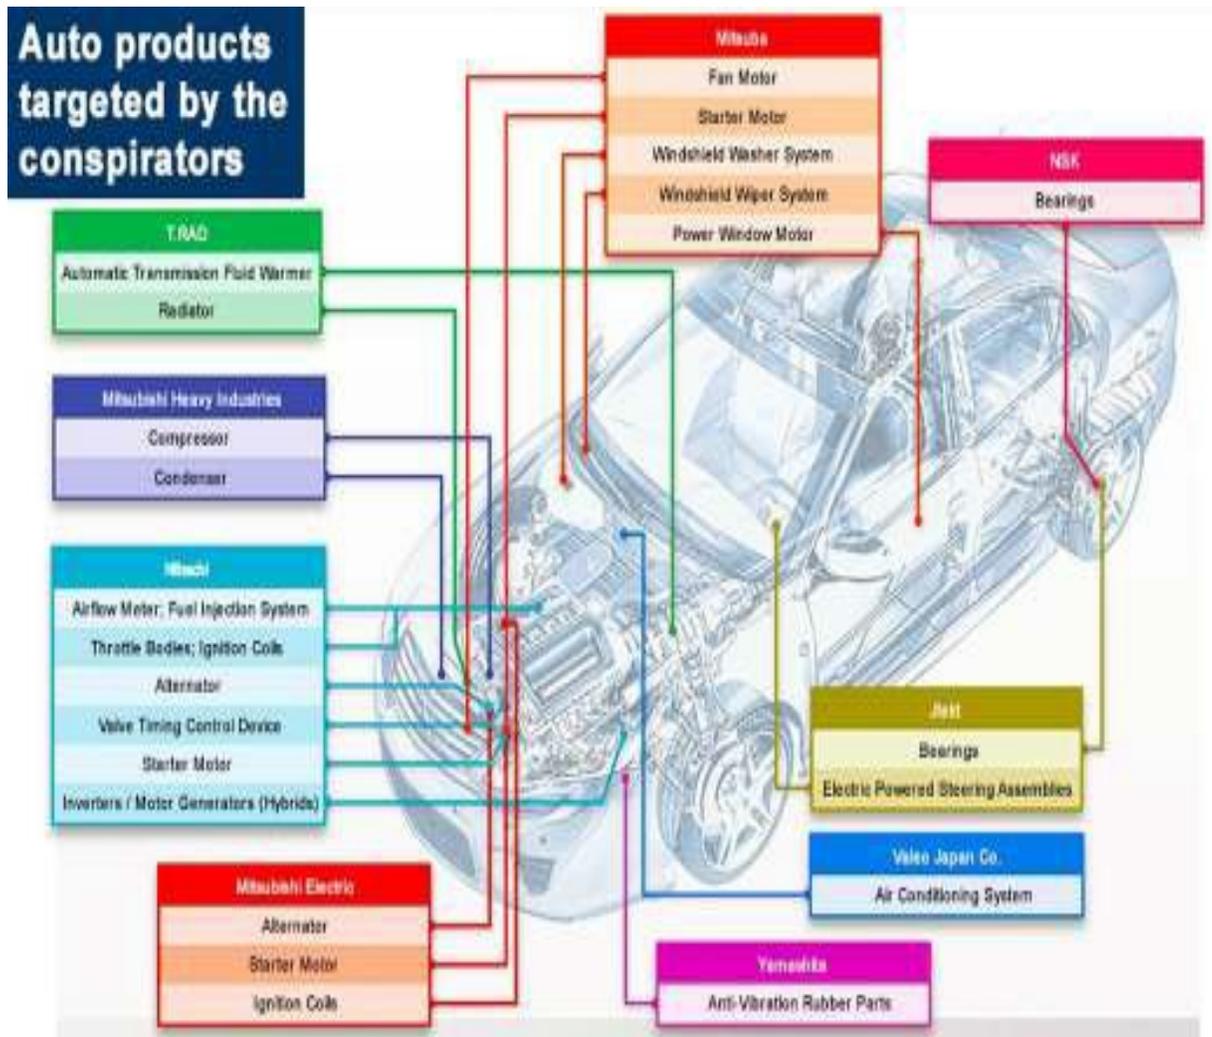

161. On the same day, September 26, 2013, then United States Attorney General Eric Holder in the Antitrust Division presented the DOJ’s most recent findings in the ongoing

REDACTED

automotive parts investigation. He stated “[t]hese international price-fixing conspiracies affected more than \$5 billion in automotive parts sold to U.S. car manufacturers. In total, more than 25 million cars purchased by American consumers were affected by the illegal conduct.” Holder also described how the conspiracies worked: “[c]ompany executives face to face in the United States and Japan – and talked on the phone – to reach collusive agreements to rig bids, fix prices and allocate the supply of auto parts sold to U.S. car companies. In order to keep their illegal conduct secret, they used code names and met in remote locations. Then they followed up with each other regularly to make sure the collusive agreements were being adhered to.” Attorney General Holder explained that the automotive parts conspiracies “targeted U.S. manufacturing, U.S. businesses and U.S. consumers. As a result of these conspiracies, Americans paid more for their cars.”

162. The diagram below, which was prepared by the DOJ, illustrates the September 26, 2013 guilty pleas and the corresponding automotive parts to which the various manufacturers have admitted price-fixing.

REDACTED

163. On October 9, 2013, Takata Corporation announced that it agreed to pay \$71.3 million to settle antitrust charges brought by the United States federal prosecutors for its role in a conspiracy to price-fix seatbelts.

164. On November 26, 2013, the DOJ announced that Toyo Tire & Rubber Co. Ltd. agreed to plead guilty and to pay a \$120 million criminal fine for its role in two separate conspiracies to fix the prices of automotive components involving anti-vibration rubber and constant-velocity-joint boots installed in automobiles sold in the United States and elsewhere.

REDACTED

165. On November 27, 2013, the DOJ announced that Stanley Electric Co. Ltd. agreed to plead guilty and to pay a \$1.44 million criminal fine for its participation in a conspiracy to fix prices of automotive HID lamp ballasts installed in automobiles sold in the United States and elsewhere.

166. On January 16, 2014, the DOJ announced that Koito Manufacturing Co. Ltd. agreed to plead guilty and to pay a \$56.6 million criminal fine for its roles in separate price-fixing conspiracies involving automobile lighting fixtures and automotive high-intensity discharge (HID) lamp ballasts installed in cars sold in the United States and elsewhere.

167. On January 31, 2014, the DOJ announced that Shigehiko Ikenaga, the former president of Diamond Electric, agreed to serve 16 months in a U.S. prison, pay a \$5,000 criminal fine and plead guilty to a one-count criminal Information charging him with participating in the conspiracy alleged herein. Also on January 31, 2014, the DOJ announced that Tatsuo Ikenaga, the former vice-president of Diamond Electric and former president of Diamond Electric's U.S. subsidiary, agreed to serve 13 months in a U.S. prison, pay a \$5,000 criminal fine and plead guilty to a one-count criminal Information charging him with participating in the conspiracy alleged herein.

168. On February 3, 2014, the DOJ announced that Aisan Industry Co. Ltd. agreed to plead guilty and to pay a \$6.86 million criminal fine for its role in a price-fixing conspiracy involving electronic throttle bodies sold to an automobile manufacturer in the United States and elsewhere.

169. On February 13, 2014, the DOJ announced that Bridgestone Corp. agreed to plead guilty and to pay a \$425 million criminal fine for its role in a conspiracy to fix prices of

REDACTED

automotive anti-vibration rubber parts installed in automobiles sold in the United States and elsewhere.

170. On February 20, 2014, the DOJ announced that Kazuaki Fujitani, a former executive of Co-Conspirator DENSO Corporation, agreed to serve one year and one day in a U.S. prison and plead guilty to a one-count criminal Information charging him with obstruction of justice for deleting numerous e-mails and electronic documents upon learning the FBI was executing a search warrant on Co-Conspirator DENSO International America, Inc. in connection with the DOJ's investigation into a conspiracy to fix the prices of HCPs installed in automobiles sold in the United States and elsewhere.

171. On April 23, 2014, the DOJ announced that Showa Corp. agreed to plead guilty and to pay a \$19.9 million criminal fine for its role in a conspiracy to fix prices and rig bids for pinion-assist type electric powered steering assemblies installed in cars sold in the United States and elsewhere.

172. On June 30, 2014, the DOJ announced that Satoru Horisaki, a former executive of Co-Conspirator DENSO Corporation, agreed to serve one year and one day in a U.S. prison, pay a \$20,000 criminal fine, and plead guilty to a one-count criminal Information charging him with participating in a conspiracy to agree upon bids and prices for, and allocate the supply of, automotive instrument panel clusters sold to Honda, in the United States and elsewhere.

173. On August 19, 2014, the DOJ announced that NGK Sparkplug Co. Ltd. agreed to plead guilty and pay a \$52.1 million criminal fine for its role in a conspiracy to fix prices and rig bids for spark plugs, standard oxygen sensors, and air fuel ratio sensors installed in cars sold to automobile manufacturers in the United States and elsewhere.

REDACTED

174. On September 18, 2014, the DOJ announced that a federal grand jury returned a one-count Indictment against Takashi Toyokuni, Ken Funasaki, Kazunobu Tsunekawa and Tomiya Itakura of Hitachi Automotive Systems Ltd. for agreeing to allocate the supply of, rig bids for, and fix, stabilize and maintain the prices of, certain automotive parts sold to various automobile manufacturers such as, Ford Motor Company, General Motors, Nissan, Toyota, and Honda, and others, and certain of their subsidiaries, in the United States and elsewhere. During the period covered by the Indictment, Takashi Toyokuni, Ken Funasaki, and Kazunobu Tsunekawa worked for Hitachi in the United States and Japan. For purposes of the Indictment, “automotive parts” included, among other parts, Ignition Coils.

175. Also on September 18, 2014, the DOJ announced that a federal grand jury returned a three-count Indictment against Atsushi Ueda, Minoru Kurisaki, and Hideyuki Saito, current and former executives of Mitsubishi Electric, for their participation in a conspiracy to fix the prices of certain automotive parts, including starter motors, alternators, and Ignition Coils. Count one charged Atsushi Ueda, Minoru Kurisaki, and Hideyuki Saito with participating in a conspiracy to suppress and eliminate competition in the automotive parts industry by agreeing to allocate the supply of, rig bids for, and fix, stabilize, and maintain the prices of, various automotive parts sold to Ford, General Motors, Chrysler, Fuji Heavy Industries, Nissan, Honda, and certain of their subsidiaries, in the United States and elsewhere. Count two charged Minoru Kurisaki and Hideyuki Saito with knowingly conspiring to obstruct justice by destroying documents and corruptly persuading, and attempting to persuade others, to destroy documents related to an official proceeding, grand jury investigation, and U.S. agency investigation. Count three charged Hideyuki Saito with knowingly and corruptly persuading, or attempting to persuade, other employees of Mitsubishi Electric to destroy or conceal paper documents and

REDACTED

delete electronic data that may contain evidence of antitrust crimes in the United States and elsewhere with the intent to impair the objects' availability and integrity for use in an official proceeding.

176. On September 29, 2014, the DOJ announced that Toyoda Gosei Co. Ltd. agreed to plead guilty and to pay a \$26 million criminal fine for its involvement in a combination and conspiracy to suppress competition in the automotive parts industry by agreeing to allocate sales of, to rig bids for, and to fix, stabilize, and maintain the prices of certain automotive hoses sold to Toyota in the United States and by agreeing to allocate sales of, to rig bids for, and to fix, stabilize, and maintain the prices of, automotive airbags and steering wheels sold to Subaru and Toyota in the United States and elsewhere.

177. On October 31, 2014, the DOJ announced that Hitachi Metals Ltd. agreed to plead guilty and to pay a \$1.25 million criminal fine for its role in a conspiracy to allocate the sales of, rig bids for, and fix, raise, and maintain the prices of automotive brake hose sold to Toyota in the United States and elsewhere.

178. On November 13, 2014, the DOJ announced that Aisin Seiki Co. Ltd. agreed to plead guilty and to pay a \$35.8 million criminal fine for its role in a conspiracy to allocate customers of variable valve timing devices installed in cars sold to automobile manufacturers in the United States and elsewhere.

179. On November 24, 2014, the DOJ announced that Continental Automotive Electronics LLC and Continental Automotive Korea Ltd. agreed to plead guilty and to pay a criminal fine of \$4 million for their roles in a conspiracy to rig bids of instrument panel clusters installed in vehicles manufactured and sold in the United States.

REDACTED

180. On January 27, 2015, the DOJ announced that Sanden Corp. agreed to plead guilty and to pay a criminal fine of \$3.2 million for its role in a conspiracy to allocate the sales of, rig bids for, and fix, raise, and maintain the prices of compressors used in air conditioning systems sold to Nissan North America, Inc. in the United States and elsewhere.

181. On March 31, 2015, the DOJ announced that Robert Bosch GmbH agreed to plead guilty and to pay a criminal fine of \$57.8 million for its role in a conspiracy to suppress and eliminate competition by agreeing to rig bids for, and to fix, stabilize, and maintain the prices of certain automotive parts sold in the United States and elsewhere.

182. On April 23, 2015, the DOJ announced that Takashi Toyokuni, a former executive of Co-Conspirator Hitachi Automotive Systems Ltd., agreed to serve fifteen months in a U.S. prison, pay a \$20,000 criminal fine, and plead guilty to a one-count criminal Indictment charging him with participating in a conspiracy to agree upon bids and prices for, and allocate the supply of, among other auto parts, Ignition Coils, sold in the United States and elsewhere.

183. On April 28, 2015, the DOJ announced that Yamada Manufacturing Co., Ltd. agreed to plead guilty and to pay a \$2.5 million criminal fine for its role in a conspiracy to rig bids for, and to fix, stabilize, and maintain the prices of steering columns sold to certain subsidiaries of Honda, in the United States and elsewhere.

184. On September 3, 2015, the DOJ announced that NGK Insulators, Ltd. agreed to plead guilty and to pay a \$65.3 million criminal fine for its role in a conspiracy to rig bids for, and to fix, stabilize, and maintain the prices of ceramic substrates for automotive catalytic converters supplied to automobile manufacturers in the United States and elsewhere. The company also agreed to plead guilty to obstruction of justice for altering, destroying, or concealing documents with the intent to impede the criminal antitrust investigation.

REDACTED

185. On September 16, 2015, the DOJ announced that Kayaba Industries Co. Ltd. d/b/a KYB Corporation agreed to plead guilty and to pay a \$62 million criminal fine for its role in a conspiracy to suppress and eliminate competition in the automotive parts industry by agreeing to allocate markets, rig bids for, and to fix, stabilize, and maintain the prices of shock absorbers sold to certain automobile and motorcycle manufacturers in the United States and elsewhere.

186. On October 8, 2015, the DOJ announced that two former executives and one current executive of Nishikawa Rubber Co. were indicted for conspiring to fix the prices of automotive body sealing products, which include body-side opening seals, door-side weather stripping, glass-run channels, trunk lids and other smaller seals. Two of the individuals were also indicted for instructing and encouraging certain employees of Nishikawa Rubber Co. to destroy documents in an effort to impede the criminal antitrust investigation.

187. On November 19, 2015, the DOJ announced that INOAC Corp. agreed to plead guilty and to pay a \$2.35 million criminal fine for its role in a conspiracy to suppress and eliminate competition in the automotive parts industry by agreeing to allocate sales of, to rig bids for, and to fix, stabilize, and maintain the prices of certain plastic interior trim automotive parts sold to Toyota in the United States and elsewhere.

188. On March 17, 2016, the DOJ announced that Omron Automotive Electronics Co., Ltd. agreed to plead guilty and to pay a \$4.55 million criminal fine for its role in a conspiracy to suppress and eliminate competition in the automotive parts industry by agreeing to allocate sales of, to rig bids for, and to fix, stabilize, and maintain the prices of power window switches sold to Honda in the United States and elsewhere.

189. On May 16, 2016, the DOJ announced that Corning International K.K. agreed to plead guilty and to pay a \$66.5 million criminal fine for its role in a conspiracy to suppress and

REDACTED

eliminate competition in the automotive parts industry by agreeing to allocate sales of, to rig bids for, and to fix, stabilize, and maintain the prices of ceramic substrates sold to automobile manufacturers in the United States and elsewhere.

190. On June 15, 2016, the DOJ announced that a federal grand jury, sitting in the U.S. District Court for the Southern District of Ohio, returned two indictments charging Japanese automotive parts companies, their U.S. subsidiaries, and a total of five executives with criminal antitrust violations for their participation in international conspiracies to eliminate competition in the sale of automotive parts in the United States. One of the indictments charges Tokai Kogyo Co. Ltd., its wholly-owned U.S. subsidiary, Green Tokai Co. Ltd., and its former executive Akitada Tazumi with conspiring to rig bids for and fix the prices of automotive body sealing products sold to an automobile manufacturer for installation in vehicles sold in the United States and elsewhere. The other indictment charges Maruyasu Industries Co. Ltd., its wholly-owned U.S. subsidiary, Curtis-Maruyasu America Inc., and their executives, Tadao Hirade, Satoru Murai, Kazunori Kobayashi and Yoshihiro Shigematsu, with conspiring to fix prices, allocate customers, and rig bids for automotive steel tubes sold to automobile manufacturers for installation in vehicles sold in the United States and elsewhere.

191. On July 20, 2016, the DOJ announced that Nishikawa Rubber Co. Ltd. agreed to plead guilty and pay a \$130 million criminal fine for its role in a conspiracy to suppress and eliminate competition in the automotive parts industry by agreeing to allocate sales of, to rig bids for, and to fix, stabilize, and maintain the prices of automotive body sealing products sold to automobile manufacturers in the United States and elsewhere.

192. On August 9, 2016, the DOJ announced that Co-Conspirator Hitachi Automotive Systems Ltd. agreed to plead guilty and pay a \$55.48 million fine for its role in a conspiracy to

REDACTED

allocate markets, fix prices and rig bids for shock absorbers sold to vehicle manufacturers in the United States and elsewhere from the mid-1990s until the summer of 2011. According to the press release, although Hitachi Automotive Systems Ltd. previously agreed to plead guilty to price-fixing and bid-rigging various automotive parts, it failed to uncover and disclose that it had also conspired to fix the prices of shock absorbers.

193. On September 15, 2016, the DOJ announced that Defendant Alpha Corporation agreed to plead guilty and to pay a \$9 million criminal fine for its role in a conspiracy to rig bids and to fix, stabilize, and maintain prices of access mechanisms.

194. On March 7, 2017, the DOJ announced that Kiekert AG agreed to plead guilty and to pay a \$6.1 million criminal fine for its role in a conspiracy to rig bids of side-door latches and latch minimodules.

195. On May 31, 2018, the DOJ announced that Maruyasu Industries Co. Ltd. pleaded guilty and agreed to pay a \$12 million criminal fine for its role in a conspiracy to fix prices, rig bids, allocate customers for automotive steel tubes.

196. To date, 46 companies and 65 individuals have been charged in the Antitrust Division's ongoing investigation into price-fixing and bid-rigging in the automotive parts industry. Of the 46 companies charged, 45 have either pleaded guilty or agreed to plead guilty and, altogether, they have agreed to pay a total of more than \$2.9 billion in criminal fines.

197. As stated by the FBI's Special Agent in Charge, Andrew G. Arena in a January 30, 2012 press release, "[t]his criminal activity has a significant impact on the automotive manufacturers in the United States, Canada, Japan and Europe and has been occurring at least a decade. The conduct had also affected commerce on a global scale in almost every market where automobiles are manufactured and/or sold." As Mr. Arena previously said in a September 29,

REDACTED

2011 press release, “[w]hen companies partner to control and price fix bids or contracts, it undermines the foundation of the United States’ economic system. The FBI is committed to aggressively pursuing any company involved in antitrust crimes.”

F. Illustrative Examples

198. Illustrative examples of Defendants’ and their co-conspirators’ conspiratorial conduct in the market for Automotive Hoses, but are not limited to, the following:

Ford V6 and Mazda L4, Model Year Unknown

199. In early 2004, Ford and Mazda issued a joint RFQ for Ignition Coils to Mitsubishi Electric, Bosch, Visteon, DENSO and Diamond Electric. During this time, Ford and Mazda had a joint manufacturing agreement. DENSO previously supplied Ignition Coils for Mazda’s L4 engine in Japan and Diamond Electric previously supplied Ignition Coils for Ford’s V6 engine in the United States. DENSO and Diamond Electric had discussions over the phone to discuss estimated quotes, bid levels, and market allocation. DENSO’s [REDACTED] participated in at least one of these meetings. DENSO and Diamond Electric agreed to submit approximately the same quote so each could maintain its previous business. Through email, Diamond Electric and DENSO agreed on Diamond Electric’s bid for the Ford V6 business in the United States, and discussed coordination for the Mazda L4 engine in Japan. Ford ultimately awarded Diamond Electric the Ignition Coil business for the Ford V6 engine as planned.

General Motors, HVV6 Engine, Model Year 2008

200. In 2004, General Motors issued an RFQ to DENSO, Diamond Electric, and Mitsubishi Electric for Ignition Coils to be installed in the General Motors HVV6 engines. Mitsubishi Electric was the incumbent supplier. DENSO and Mitsubishi Electric discussed pricing and bid estimates prior to submitting their bids to General Motors. After the companies

REDACTED

submitted their bids, General Motors requested a second round of bids. In order to avoid lower prices and preserve future pricing levels, DENSO acceded to Mitsubishi Electric's request that it would not lower its bid. Mitsubishi Electric shared its bid information with DENSO, and DENSO agreed to raise its bid to a price higher than its initial bid. DENSO submitted a higher bid pursuant to its agreement with Mitsubishi Electric. Shortly after submitting its bid, General Motors approached DENSO and offered to allow DENSO to win the business if DENSO would lower its price. DENSO had a telephone conversation with Mitsubishi Electric during which it agreed that it would not bid lower than Mitsubishi Electric. DENSO International America's [REDACTED] and Mitsubishi Electric's [REDACTED] were present during at least one of these conversations. Mitsubishi Electric ultimately won the business as that parties intended.

General Motors, L850, HFV6, Gen IV, Model Year Unknown

201. In 2006, General Motors issued an RFQ to DENSO, Diamond Electric, Toyo Denso, and Mitsubishi Electric for Ignition Coils to be installed in the HFV6 engines, L850 engines, and Gen IV engines. DENSO was the incumbent for L850 and HFV6 engines. Mitsubishi Electric was the incumbent for Gen IV engines. DENSO discussed the RFQ with Mitsubishi Electric, Diamond Electric, and Toyo Denso.

202. DENSO and Mitsubishi Electric exchanged bid information during two telephone conversations, one in February and one in March of 2006. After those conversations, DENSO and Mitsubishi Electric met on approximately March 16, 2006 to further coordinate their response to the RFQ. During that meeting, Mitsubishi Electric agreed to bid higher for the L850 and HFV6 engines and DENSO agreed to bid higher for the Gen IV engines. DENSO's [REDACTED] and Mitsubishi Electric's [REDACTED] and Mr. [REDACTED] attended at least one of these meetings.

REDACTED

203. DENSO and Mitsubishi Electric also coordinated bids with Diamond Electric. In March 2006, Diamond Electric and DENSO met to discuss their bids. Diamond Electric agreed to respect DENSO's incumbency for L850 and HFV6 engines. DENSO's [REDACTED] also told Diamond Electric that DENSO would respect Mitsubishi Electric's incumbency for Gen IV engines and Diamond Electric expressed to DENSO an interest in discussing the RFQ with Mitsubishi Electric. Ultimately, Diamond Electric refrained from submitting a quote to General Motors for Ignition Coils to be supplied for these engines.

204. DENSO also coordinated bids with Toyo Denso. In February 2006, DENSO's [REDACTED] tried to contact Toyo Denso's Mr. [REDACTED] about responding to the RFQ. An individual at Toyo Denso told DENSO's [REDACTED] that Mr. [REDACTED] was away on a business trip and further that the matter could only be discussed with Mr. [REDACTED]. DENSO's [REDACTED] asked DENSO International America's [REDACTED] to contact Weastec, Inc. ("Weastec"), the U.S. subsidiary of Toyo Denso. [REDACTED] of Weastec contacted DENSO International America's [REDACTED] about the RFQ. During this conversation, Weastec noted that Toyo Denso had received the RFQ and wanted to know how it should be handled. Weastec ultimately confirmed that Toyo Denso would not submit a bid.

205. As planned, General Motors awarded the L850 and HFV6 Ignition Coil business to DENSO, and awarded the Gen IV Ignition Coil business to Mitsubishi Electric.

General Motors, Model L850 Engine, Model Year 2012, 2013

206. In 2008, General Motors issued an RFQ for Ignition Coils to be used in the 2012 or 2013 Model 8 engine installed in various General Motors vehicles, including the Alera, Aura, Cavalier, Cobalt, Grand Am, Ion, Malibu, Sky, Solstice, Murano and Vue. Some of these are manufactured and sold in the United States. DENSO's [REDACTED] spoke with Mitsubishi

REDACTED

Electric's [REDACTED]. During this conversation, Mitsubishi Electric agreed to bid higher than DENSO. DENSO ultimately won the business as the parties intended.

Honda, Accord V6 and L4, Pilot V6, Model Year 2008

207. In 2005, Honda issued an RFQ for Ignition Coils to DENSO and Hitachi for the Accord V6 and L4 engines. About six months later, Honda issued an RFQ to DENSO and Hitachi for Ignition Coils to be installed in the Pilot V6 engine. Toyo Denso and Diamond Electric also received both RFQs, but at later dates. DENSO was the incumbent supplier for the Accord L4 engine in North America and the incumbent for the Pilot V6 engine. Toyo Denso was the incumbent for the Accord L4 engine in Japan, and Hitachi was the incumbent for the Accord V6 engine. Shortly after receiving the RFQ, Diamond Electric and DENSO had telephone conversations in which Diamond Electric agreed to respect: (i) DENSO's incumbency for the Accord L4 Engine; and (ii) Hitachi's incumbency for the Accord V6 engine. Diamond Electric's [REDACTED] participated in at least one of these conversations.

208. In November 2004, DENSO met with Hitachi. During this meeting, Hitachi agreed to bid higher than DENSO for the Accord L4 engine and the Pilot V6 engine. In exchange, DENSO agreed to bid higher for the Accord V6 engine. After DENSO's meeting with Hitachi, DENSO and Diamond Electric discussed their respective bids. During this discussion, Diamond Electric specifically agreed to bid higher than DENSO for the Accord L4 engine and higher than Hitachi for the Accord V6 engine. Ultimately, the suppliers maintained their business as agreed – Hitachi was awarded the business for the Accord V6 engine, DENSO was awarded the business for the Accord L4 engine for all markets other than Japan, Toyo Denso was awarded the Accord L4 engine to be sold in Japan, and DENSO was awarded the Pilot V6 engine.

REDACTED

Honda V6 Engine for Model Year 2012 U.S. Market Vehicles

209. Honda issued an RFQ to both DENSO and Toyo Denso for Ignition Coils to be installed in the Honda V6 engine, which in turn was installed in vehicles sold in the United States. At the time Honda issued the RFQ, Hitachi was the incumbent supplier. Hitachi confirmed with DENSO that it no longer supply Ignition Coils to Honda for the V6 engine and therefore would not submit a bid. Thereafter, DENSO and Toyo Denso discussed their respective bids. Representatives from DENSO and Toyo Denso met in person at least once in late 2008 and at least once in 2009 during which they exchanged bid levels. DENSO told Toyo Denso that it intended to bid lower than Toyo Denso. Ultimately, Honda awarded the business to DENSO.

CLASS ACTION ALLEGATIONS

210. Plaintiffs bring this action on behalf of themselves and as a class action under Rule 23(a) and (b)(2) of the Federal Rules of Civil Procedure, seeking equitable and injunctive relief on behalf of the following class (the “Nationwide Class”):

All persons and entities who, during the Class Period, purchased or leased a new vehicle in the United States not for resale which included one or more Ignition Coil(s) as a component part, which were manufactured or sold by a Defendant, any current or former subsidiary of a Defendant or any co-conspirator of the Defendants.

211. Plaintiffs also bring this action on behalf of themselves and as a class action under Rule 23(a) and (b)(3) of the Federal Rules of Civil Procedure seeking damages pursuant to state antitrust, unfair competition, and consumer protection laws as well as common law unjust enrichment on behalf of the following class (the “Damages Class”):

All persons and entities who, during the Class Period, purchased or leased a new vehicle in the Indirect Purchaser States⁵ not for resale which included one or more Ignition Coil(s) as a component part,

⁵ The Indirect Purchaser States are the states listed in the Second and Third Claims for Relief.

REDACTED

which were manufactured or sold by a Defendant, any current or former subsidiary of a Defendant or any co-conspirator of the Defendants.

212. The Nationwide Class and the Damages Class are referred to herein as the “Classes.” Excluded from the Classes are the Defendants, their parent companies, subsidiaries and affiliates, any co-conspirators, federal governmental entities and instrumentalities of the federal government, states and their subdivisions, agencies and instrumentalities, and persons who purchased Ignition Coil(s) directly or for resale.

213. While Plaintiffs do not know the exact number of the members of the Classes, Plaintiffs believe there are (at least) thousands of members in each Class.

214. Common questions of law and fact exist as to all members of the Classes. This is particularly true given the nature of the Defendants’ and their co-conspirators’ conspiracy, which was generally applicable to all the members of both Classes, thereby making appropriate relief with respect to the Classes as a whole. Such questions of law and fact common to the Classes include, but are not limited to:

- (a) Whether the Defendants and their co-conspirators engaged in a combination and conspiracy among themselves to fix, raise, maintain or stabilize the prices of Ignition Coils sold in the United States;
- (b) The identity of the participants of the alleged conspiracy;
- (c) The duration of the alleged conspiracy and the acts carried out by Defendants and their co-conspirators in furtherance of the conspiracy;
- (d) Whether the alleged conspiracy violated the Sherman Act, as alleged in the First Claim for Relief;
- (e) Whether the alleged conspiracy violated state antitrust, unfair competition,

REDACTED

and/or consumer protection laws, as alleged in the Second and Third Claims for Relief;

(f) Whether the Defendants and their co-conspirators unjustly enriched themselves to the detriment of the Plaintiffs and the members of the Classes, thereby entitling Plaintiffs and the members of the Classes to disgorgement of all benefits derived by Defendants, as alleged in the Fourth Claim for Relief;

(g) Whether the conduct of the Defendants and their co-conspirators, as alleged in this Complaint, caused injury to the business or property of Plaintiffs and the members of the Classes;

(h) The effect of the alleged conspiracy on the prices of Ignition Coils sold in the United States during the Class Period;

(i) Whether Plaintiffs and the members of the Classes had any reason to know or suspect the conspiracy, or any means to discover the conspiracy;

(j) Whether the Defendants and their co-conspirators fraudulently concealed the conspiracy's existence from Plaintiffs and the members of the Classes;

(k) The appropriate injunctive and related equitable relief for the Nationwide Class; and

(l) The appropriate class-wide measure of damages for the Damages Class.

215. Plaintiffs' claims are typical of the claims of the members of the Classes, and Plaintiffs will fairly and adequately protect the interests of the Classes. Plaintiffs and all members of the Classes are similarly affected by the Defendants' and their co-conspirators' wrongful conduct in that they paid artificially inflated prices for Ignition Coils purchased indirectly from the Defendants and/or their co-conspirators.

REDACTED

216. Plaintiffs' claims arise out of the same common course of conduct giving rise to the claims of the other members of the Classes. Plaintiffs' interests are coincident with, and not antagonistic to, those of the other members of the Classes. Plaintiffs are represented by counsel who are competent and experienced in the prosecution of antitrust and class action litigation.

217. The questions of law and fact common to the members of the Classes predominate over any questions affecting only individual members, including legal and factual issues relating to liability and damages.

218. Class action treatment is a superior method for the fair and efficient adjudication of the controversy, in that, among other things, such treatment will permit a large number of similarly situated persons to prosecute their common claims in a single forum simultaneously, efficiently and without the unnecessary duplication of evidence, effort and expense that numerous individual actions would engender. The benefits of proceeding through the class mechanism, including providing injured persons or entities with a method for obtaining redress for claims that might not be practicable to pursue individually, substantially outweigh any difficulties that may arise in the management of this class action.

219. The prosecution of separate actions by individual members of the Classes would create a risk of inconsistent or varying adjudications, establishing incompatible standards of conduct for the Defendants.

PLAINTIFFS AND THE CLASSES SUFFERED ANTITRUST INJURY

220. The Defendants' and their co-conspirators' price-fixing conspiracy had the following effects, among others:

(a) Price competition has been restrained or eliminated with respect to Ignition Coils;

REDACTED

(b) The prices of Ignition Coils have been fixed, raised, maintained, or stabilized at artificially inflated levels;

(c) Indirect purchasers of Ignition Coils have been deprived of free and open competition; and

(d) Indirect purchasers of Ignition Coils paid artificially inflated prices.

221. During the Class Period, Plaintiffs and the members of the Classes paid supra-competitive prices for Ignition Coils. OEMS and automotive dealers passed on inflated prices to Plaintiffs and the members of the Classes. Those overcharges have unjustly enriched Defendants and their co-conspirators.

222. The markets for Ignition Coils and the market for vehicles are inextricably linked and intertwined because the market for Ignition Coils exists to serve the vehicle market. Without the vehicles, the Ignition Coils have little to no value because they have no independent utility. Indeed, the demand for vehicles creates the demand for Ignition Coils. As stated in the 2010 Annual Report of Lear Corporation, an automotive parts supplier: “Our sales are driven by the number of vehicles produced by the automotive manufacturers, which is ultimately dependent on consumer fleet demand for automotive vehicles.”

223. Ignition Coils are identifiable, discrete physical products that remain essentially unchanged when incorporated into a vehicle. As a result, Ignition Coils follow a traceable physical chain of distribution from the Defendants and their co-conspirators to Plaintiffs and the members of the Classes, and costs attributable to Ignition Coils can be traced through the chain of distribution to Plaintiffs and the members of the Classes.

REDACTED

224. Just as Ignition Coils can be physically traced through the supply chain, so can their price be traced to show that changes in the prices paid by direct purchasers of Ignition Coils affect prices paid by indirect purchasers of new motor vehicles containing Ignition Coils.

225. While even a monopolist would increase its prices when the cost of its inputs increased, the economic necessity of passing through cost changes increases with the degree of competition a firm faces. The OEM and dealer markets for new motor vehicles are subject to vigorous price competition. The OEMs and dealers have thin net margins, and are therefore at the mercy of their component costs, such that increases in the price of components such as Ignition Coils lead to corresponding increases in prices for new motor vehicles at the OEM and dealer levels. When downstream distribution markets are highly competitive, as they are in the case of new motor vehicles containing Ignition Coils as components, overcharges are passed through to ultimate consumers, such as the indirect-purchaser Plaintiffs and members of the Classes.

226. Hence the inflated prices of Ignition Coils in new motor vehicles resulting from Defendants' and their co-conspirators' bid-rigging and price-fixing conspiracy have been passed on to Plaintiffs and the other members of the Classes by OEMs and dealers.

227. The economic and legal literature has recognized that unlawful overcharges in a component normally result in higher prices for products containing that price-fixed component. Two antitrust scholars—Professors Robert G. Harris (Professor Emeritus and former Chair of the Business and Public Policy Group at the Haas School of Business at the University of California at Berkeley) and the late Lawrence A. Sullivan (Professor of Law Emeritus at Southwestern Law

REDACTED

School and author of the Handbook of the Law of Antitrust)—have observed that “in a multiple-level chain of distribution, passing on monopoly overcharges is not the exception: it is the rule.”⁶

228. As Professor Jeffrey K. MacKie-Mason (Arthur W. Burks Professor for Information and Computer Science and Professor of Economics and Public Policy at the University of Michigan), an expert who presented evidence in a number of indirect purchaser cases involving Microsoft Corporation, said (in a passage quoted in the judicial decision in that case granting class certification):

As is well known in economic theory and practice, at least some of the overcharge will be passed on by distributors to end consumers. When the distribution markets are highly competitive, as they are here, all or nearly the entire overcharge will be passed on through to ultimate consumers...Both of Microsoft’s experts also agree upon the economic phenomenon of cost pass through, and how it works in competitive markets. This general phenomenon of cost pass through is well established in antitrust laws and economics as well.⁷

229. The purpose of the conspiratorial conduct of the Defendants and their co-conspirators was to raise, fix, rig or stabilize the price of Ignition Coils and, as a direct and foreseeable result, the price of new motor vehicles containing Ignition Coils. Economists have developed techniques to isolate and understand the relationship between one “explanatory” variable and a “dependent” variable in those cases when changes in the dependent variable are explained by changes in a multitude of variables, even when all such variables may be changing simultaneously. That analysis - called regression analysis - is commonly used in the real world and in litigation to determine the impact of a price increase on one cost in a product (or service)

⁶ Robert G. Harris & Lawrence A. Sullivan, *Passing on the Monopoly Overcharge: A Comprehensive Policy Analysis*, 128 U. Pa. L. Rev. 268, 275 (1979).

⁷ Order re: Class Certification at 13-14, *Coordination Proceedings Special Title (Rule 1550(b)) Microsoft I-V Cases*, No. J.C.C.P. No. 4106, (Cal. Sup. Ct. Aug. 29, 2000).

REDACTED

that is an assemblage of costs. Thus, it is possible to isolate and identify only the impact of an increase in the price of Ignition Coils on prices for new motor vehicles even though such products contain a number of other components whose prices may be changing over time. A regression model can explain how variation in the price of Ignition Coils affects changes in the price of new motor vehicles. In such models, the price of Ignition Coils would be treated as an independent or explanatory variable. The model can isolate how changes in the price of Ignition Coils impact the price of new motor vehicles containing Ignition Coils while controlling for the impact of other price-determining factors.

230. The precise amount of the overcharge impacting the prices of new motor vehicles containing Ignition Coils can be measured and quantified. Commonly used and well-accepted economic models can be used to measure both the extent and the amount of the supra-competitive charge passed through the chain of distribution. Thus, the economic harm to Plaintiffs and class members can be quantified.

231. In addition to the regression analysis discussed above demonstrating impact on consumers, the Department of Justice's Antitrust Division, which has been investigating this cartel for some time, **has concluded that there is "no doubt" that consumers were hurt financially.** Sharis A. Pozen, then Acting Assistant Attorney General in charge of the Department of Justice's Antitrust Division said: "By rigging bids . . . [automotive parts manufacturers engaged in a price-fixing conspiracy] inflated what some of their auto manufacturing clients paid, and indirectly, what consumers paid for some cars." She also explained that "[a]s a result of this international price-fixing and bid-rigging conspiracy, automobile manufacturers paid noncompetitive and higher prices for parts in cars sold to U.S. consumers." Ms. Pozen also stated that "[t]his cartel harmed an important industry in our

REDACTED

nation's economy, and the Antitrust Division with the Federal Bureau of Investigation will continue to work together to ensure that these kinds of conspiracies are stopped." In a separate press statement, Ms. Pozen vowed to continue the investigation into "pernicious cartel conduct that results in higher prices to American consumers"

232. On February 15, 2013, Scott Hammond, the Deputy Assistant Attorney General in the DOJ's Antitrust Division, discussed the DOJ's ongoing automotive parts investigation in a Thomson Reuters article. He said "[t]he investigation is broader than what we've announced so far [The investigation] is still very much ongoing, but it already appears to be the biggest criminal antitrust investigation that we've ever encountered. *I say the biggest with respect to the impact on U.S. businesses and consumers, and the number of companies and executives that are subject to the investigation.*" (emphasis added).

233. On September 26, 2013, then United States Attorney General Eric Holder in the Antitrust Division presented the DOJ's then most recent findings in the ongoing automotive parts investigation. He stated "[t]hese international price fixing conspiracies affected more than \$5 billion in automobile parts sold to U.S. car manufacturers. In total, more than 25 million cars purchased by American consumers were affected by the illegal conduct." Holder also described how the conspiracies worked: "[c]ompany executives face to face in the United States and Japan—and talked on the phone—to reach collusive agreements to rig bids, fix prices and allocate the supply of auto parts sold to U.S. car companies. In order to keep their illegal conduct secret, they used code names and met in remote locations. Then they followed up with each other regularly to make sure the collusive agreements were being adhered to." Then Attorney General Holder explained that the automotive parts conspiracies "targeted U.S. manufacturing, U.S.

REDACTED

businesses and U.S. consumers. As a result of these conspiracies, Americans paid more for their cars.”

234. On May 25, 2014, news sources reported that Brent Snyder, a deputy assistant attorney general in the Antitrust Division, said with respect to the automotive parts conspiracies, “[i]t’s a very, very safe assumption that U.S. consumers paid more, and sometimes significantly more, for their automobiles as a result of this conspiracy.”

235. By reason of the violations of the antitrust law alleged herein, Plaintiffs and the members of the Classes have sustained injury to their businesses or property, having paid higher prices for Ignition Coils than they would have paid in the absence of the Defendants’ and their co-conspirators’ illegal contract, combination, or conspiracy, and, as a result, have suffered damages in an amount presently undetermined. This is an antitrust injury of the type that the antitrust laws were meant to punish and prevent.

PLAINTIFFS’ CLAIMS ARE NOT BARRED BY THE STATUTE OF LIMITATIONS

A. The Statute of Limitations Did Not Begin to Run Because Plaintiffs Did Not And Could Not Discover Their Claims

236. Plaintiffs repeat and re-allege the allegations set forth above.

237. Plaintiffs and the members of the Classes had no knowledge of the combination or conspiracy alleged herein, or of facts sufficient to place them on inquiry notice of the claims set forth herein, until (at the earliest) July 16, 2013, the date that the DOJ publicly announced Co-Conspirator Diamond Electric Mfg. Co., Ltd.’s anticipated guilty plea.⁸

⁸ Plaintiffs and members of the Classes had no knowledge of the combination or conspiracy alleged herein, or of facts sufficient to place them on inquiry notice of the claims set forth herein, until (at the earliest), January 16, 2015, for the Toyo Denso Defendants and June 16, 2017 for the Delphi Defendants, the dates that Plaintiffs received information from a cooperating co-conspirator regarding the Toyo Denso and Delphi Defendants’ participation in the combination

REDACTED

238. Plaintiffs and the members of the Classes are purchasers who purchased or leased vehicles. They had no direct contact or interaction with the Defendants or co-conspirators and had no means from which they could have discovered the combination and conspiracy described in this Complaint before July 16, 2013, the date that the DOJ publicly announced Co-Conspirator Diamond Electric Mfg. Co., Ltd.'s anticipated guilty plea.

239. No information in the public domain was available to Plaintiffs and members of the Classes prior to July 16, 2013, the date that the DOJ publicly announced Diamond Electric Mfg. Co., Ltd.'s anticipated guilty plea, that revealed sufficient information to suggest that the Defendants or their co-conspirators were involved in a criminal conspiracy to price-fix and rig bids for Ignition Coils. Plaintiffs and the members of the Classes had no means of obtaining any facts or information concerning any aspect of the Defendants' or their co-conspirators' dealings with OEMs or other direct purchasers, much less the fact that they and their co-conspirators had engaged in the combination and conspiracy alleged herein.

240. For these reasons, the statute of limitations as to Plaintiffs' and the Classes' claims did not begin to run, and has been tolled with respect to the claims that Plaintiffs and members of the Classes have alleged in this Complaint.

or conspiracy alleged herein. No information in the public domain was available to the Plaintiffs and the members of the Classes prior to this date that revealed sufficient information to suggest that the Toyo Denso or Delphi Defendants were involved in the combination or conspiracy alleged herein. Therefore, the statute of limitations did not begin to run because Plaintiffs and members of the Classes did not and could not discover their claims, or in the alternative, because fraudulent concealment tolled the statute of limitations, until January 16, 2015 with respect to the Toyo Denso Defendants and June 16, 2017 for the Delphi Defendants. In addition, the Statute of Limitations with respect to the Delphi Defendants was tolled by agreement from December 5, 2017 through the filing of this complaint.

REDACTED

B. Fraudulent Concealment Tolled the Statute of Limitations

241. In the alternative, application of the doctrine of fraudulent concealment tolled the statute of limitations on the claims asserted herein by Plaintiffs and the Classes. Plaintiffs and the members of the Classes did not discover, and could not discover through the exercise of reasonable diligence, the existence of the conspiracy alleged herein until July 16, 2013, the date that the DOJ publicly announced Co-Conspirator Diamond Electric Mfg. Co., Ltd.'s anticipated guilty plea.⁹

242. Before that time, Plaintiffs and the members of the Classes were unaware of the Defendants' and their co-conspirators' unlawful conduct, and did not know before then that they were paying supra-competitive prices for Ignition Coils throughout the United States during the Class Period. No information, actual or constructive, was ever made available to Plaintiffs and members of the Classes that even hinted to Plaintiffs that they were being injured by the Defendants' and their co-conspirators' unlawful conduct.

243. The affirmative acts of the Defendants and their co-conspirators alleged herein, including acts in furtherance of the conspiracy, were wrongfully concealed and carried out in a manner that precluded detection.

244. Specifically, as Attorney General Holder explained in connection with the DOJ's globally coordinated investigation into price-fixing in the Automotive parts industry, "[i]n order to keep their illegal conduct secret, [Defendants] used code names and met in remote locations."

⁹ See footnote eight.

REDACTED

245. As stated in the Information filed against Co-Conspirator Hitachi Automotive Systems, Ltd., the Defendants and their co-conspirators employed “measures to keep their conduct secret, including, but not limited to, using code names and meeting at remote locations.”

246. Also, a former executive of Co-Conspirator DENSO, Kazuaki Fujitani, pleaded guilty to a charge of obstruction of justice in which he admitted that he “corruptly destroyed and concealed a record and document, that is, by deleting numerous emails and electronic files” for a related automotive part.

247. In addition, two employees of Co-Conspirator Hitachi, Minoru Kurisaki and Hideyuki Saito were charged by the DOJ with knowingly conspiring to obstruct justice by destroying documents and corruptly persuading, and attempting to persuade others, to destroy documents related to an official proceeding, grand jury investigation, and U.S. agency investigation. The DOJ also charged Hideyuki Saito with obstruction of justice by knowingly and corruptly persuading or attempting to persuade other employees of Mitsubishi Electric to destroy or conceal paper documents and delete electronic data that may contain evidence of antitrust crimes in the United States and elsewhere with the intent to impair the objects’ availability and integrity for use in official proceedings.

248. By its very nature, the Defendants’ and their co-conspirators’ anticompetitive conspiracy and unlawful combinations were inherently self-concealing. Ignition Coils are not exempt from antitrust regulation and, thus, before July 16, 2013, Plaintiffs reasonably considered the Ignition Coils industry to be a competitive industry. Defendants and their co-conspirators met and communicated in secret and agreed to keep the facts about their collusive conduct from being discovered by any member of the public or by the OEMs and other direct purchasers with whom they did business. Accordingly, a reasonable person under the circumstances would not

REDACTED

have been alerted to begin to investigate the legitimacy of the Defendants' and their co-conspirators' Ignition Coil prices before July 16, 2013.

249. Plaintiffs and the members of the Classes could not have discovered the alleged combination or conspiracy at an earlier date by the exercise of reasonable diligence because of the deceptive practices and techniques of secrecy employed by the Defendants and their co-conspirators to avoid detection of, and fraudulently conceal, their contract, combination, or conspiracy.

250. Throughout the course of the conspiracy, the Defendants and their co-conspirators met and communicated in secret in order to conceal their conspiracy from the public and avoid detection thereof. Above and beyond their acts in furtherance of the conspiracy, such as acts of bid rigging, Defendants and their co-conspirators engaged in surreptitious activity such as using code names and meeting at private residences or remote locations. The exact dates and times of these meetings are within the knowledge of the Defendants and their co-conspirators, including those Defendants and co-conspirators and executives of those Defendants and co-conspirators, who have pleaded guilty to criminal violations of the Sherman Act.

251. Because the alleged conspiracy was both self-concealing and affirmatively concealed by Defendants and their co-conspirators, Plaintiffs and members of the Classes had no knowledge of the alleged conspiracy, or of any facts or information that would have caused a reasonably diligent person to investigate whether a conspiracy existed, until July 16, 2013, the date that the DOJ publicly announced Co-Conspirator Diamond Electric Mfg. Co., Ltd.'s anticipated guilty plea.

252. For these reasons, the statute of limitations applicable to Plaintiffs' and the Classes' claims was tolled and did not begin to run until July 16, 2013.

REDACTED

FIRST CLAIM FOR RELIEF
Violation of Section 1 of the Sherman Act
(on behalf of Plaintiffs and the Nationwide Class)

253. Plaintiffs incorporate by reference the allegations in the preceding paragraphs.

254. The Defendants and their co-conspirators entered into and engaged in a contract, combination, or conspiracy in unreasonable restraint of trade in violation of Section 1 of the Sherman Act (15 U.S.C. § 1).

255. The acts done by the Defendants and their co-conspirators as part of, and in furtherance of, their and their co-conspirators' contract, combination, or conspiracy were authorized, ordered, or done by their officers, agents, employees, or representatives while actively engaged in the management of their affairs.

256. During the Class Period, Defendants and their co-conspirators entered into a continuing agreement, understanding and conspiracy in restraint of trade to artificially fix, raise, stabilize, and control prices for Ignition Coils, thereby creating anticompetitive effects.

257. The anticompetitive acts were intentionally directed at the United States market for Ignition Coils and had a substantial and foreseeable effect on interstate commerce by raising and fixing prices for Ignition Coils throughout the United States.

258. The conspiratorial acts and combinations have caused unreasonable restraints in the market for Ignition Coils.

259. As a result of the Defendants' and their co-conspirators' unlawful conduct, Plaintiffs and other similarly situated indirect purchasers in the Nationwide Class who purchased Ignition Coils have been harmed by being forced to pay inflated, supra-competitive prices for Ignition Coils.

REDACTED

260. In formulating and carrying out the alleged agreement, understanding and conspiracy, Defendants and their co-conspirators did those things that they combined and conspired to do, including but not limited to the acts, practices and course of conduct set forth herein.

261. Defendants and their co-conspirators' conspiracy had the following effects, among others:

(a) Price competition in the market for Ignition Coils has been restrained, suppressed, and/or eliminated in the United States;

(b) Prices for Ignition Coils sold by Defendants and their co-conspirators have been fixed, raised, maintained, and stabilized at artificially high, non-competitive levels throughout the United States; and

(c) Plaintiffs and members of the Nationwide Class who purchased Ignition Coils indirectly from Defendants and their co-conspirators have been deprived of the benefits of free and open competition.

262. Plaintiffs and members of the Nationwide Class have been injured and will continue to be injured in their business and property by paying more for Ignition Coils purchased indirectly from the Defendants and their co-conspirators than they would have paid and will pay in the absence of the conspiracy.

263. The alleged contract, combination, or conspiracy is a *per se* violation of the federal antitrust laws.

264. Plaintiffs and members of the Nationwide Class are entitled to an injunction against the Defendants, preventing and restraining the violations alleged herein.

REDACTED

SECOND CLAIM FOR RELIEF
Violation of State Antitrust Statutes
(on behalf of Plaintiffs and the Damages Class)

265. Plaintiffs incorporate by reference the allegations in the preceding paragraphs.

266. During the Class Period, Defendants and their co-conspirators engaged in a continuing contract, combination or conspiracy with respect to the sale of Ignition Coils in unreasonable restraint of trade and commerce and in violation of the various state antitrust and other statutes set forth below.

267. The contract, combination, or conspiracy consisted of an agreement among the Defendants and their co-conspirators to fix, raise, inflate, stabilize, and/or maintain at artificially supra-competitive prices for Ignition Coils and to allocate customers for Ignition Coils in the United States.

268. In formulating and effectuating this conspiracy, the Defendants and their co-conspirators performed acts in furtherance of the combination and conspiracy, including:

(a) participating in meetings and conversations among themselves in the United States and elsewhere during which they agreed to price Ignition Coils at certain levels, and otherwise to fix, increase, inflate, maintain, or stabilize effective prices paid by Plaintiffs and members of the Damages Class with respect to Ignition Coils sold in the United States;

(b) allocating customers and markets for Ignition Coils in the United States in furtherance of their agreements; and

(c) participating in meetings and conversations among themselves in the United States and elsewhere to implement, adhere to, and police the unlawful agreements they reached.

REDACTED

269. Defendants and their co-conspirators engaged in the actions described above for the purpose of carrying out their unlawful agreements to fix, maintain, increase, or stabilize prices and to allocate customers with respect to Ignition Coils.

270. Defendants' and their co-conspirators' anticompetitive acts described above were knowing and willful and constitute violations or flagrant violations of the following state antitrust statutes.

271. The Defendants and their co-conspirators have entered into an unlawful agreement in restraint of trade in violation of the Arizona Revised Statutes, §§ 44-1401, *et seq.*

(a) Defendants' and their co-conspirators' combinations or conspiracies had the following effects: (1) Ignition Coil price competition was restrained, suppressed, and eliminated throughout Arizona; (2) Ignition Coil prices were raised, fixed, maintained and stabilized at artificially high levels throughout Arizona; (3) Plaintiffs and members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(b) During the Class Period, Defendants' and their co-conspirators' illegal conduct substantially affected Arizona commerce.

(c) As a direct and proximate result of Defendants' and their co-conspirators' unlawful conduct, Plaintiffs and members of the Damages Class have been injured in their business and property and are threatened with further injury.

(d) By reason of the foregoing, Defendants entered into agreements in restraint of trade in violation of Ariz. Rev. Stat. §§ 44-1401, *et seq.* Accordingly, Plaintiffs and members of the Damages Class seek all forms of relief available under Ariz. Rev. Stat. §§ 44-1401, *et seq.*

REDACTED

272. Defendants and their co-conspirators have entered into an unlawful agreement in restraint of trade in violation of the California Business and Professions Code, §§ 16700, *et seq.*

(a) During the Class Period, Defendants and their co-conspirators entered into and engaged in a continuing unlawful trust in restraint of the trade and commerce described above in violation of Section 16720, California Business and Professions Code. Defendants and their co-conspirators, each of them, have acted in violation of Section 16720 to fix, raise, stabilize, and maintain prices of, and allocate markets for, Ignition Coils at supra-competitive levels.

(b) The aforesaid violations of Section 16720, California Business and Professions Code, consisted, without limitation, of a continuing unlawful trust and concert of action among the Defendants and their co-conspirators, the substantial terms of which were to fix, raise, maintain, and stabilize the prices of, and to allocate markets for, Ignition Coils.

(c) For the purpose of forming and effectuating the unlawful trust, the Defendants and their co-conspirators have done those things which they combined and conspired to do, including but not limited to the acts, practices and course of conduct set forth above and the following: (1) Fixing, raising, stabilizing, and pegging the price of Ignition Coils; and (2) Allocating among themselves the production of Ignition Coils.

(d) The combination and conspiracy alleged herein has had, *inter alia*, the following effects: (1) Price competition in the sale of Ignition Coils has been restrained, suppressed, and/or eliminated in the State of California; (2) Prices for Ignition Coils sold by Defendants and their co-conspirators have been fixed, raised, stabilized, and pegged at artificially high, non-competitive levels in the State of California and throughout the United States; and (3) Those who purchased Ignition Coils directly or indirectly from the Defendants

REDACTED

and their co-conspirators have been deprived of the benefit of free and open competition.

(e) As a direct and proximate result of Defendants' and their co-conspirators' unlawful conduct, Plaintiffs and members of the Damages Class have been injured in their business and property in that they paid more for Ignition Coils than they otherwise would have paid in the absence of Defendants' and their co-conspirators' unlawful conduct. As a result of Defendants' and their co-conspirators' violation of Section 16720 of the California Business and Professions Code, Plaintiffs and members of the Damages Class seek treble damages and their cost of suit, including a reasonable attorney's fee, pursuant to Section 16750(a) of the California Business and Professions Code.

273. Defendants and their co-conspirators have entered into an unlawful agreement in restraint of trade in violation of the District of Columbia Code Annotated §§ 28-4501, *et seq.*

(a) Defendants' and their co-conspirators' combinations or conspiracies had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout the District of Columbia; (2) Ignition Coil prices were raised, fixed, maintained and stabilized at artificially high levels throughout the District of Columbia; (3) Plaintiffs and members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(b) During the Class Period, Defendants' and their co-conspirators' illegal conduct substantially affected District of Columbia commerce.

(c) As a direct and proximate result of Defendants' and their co-conspirators' unlawful conduct, Plaintiffs and members of the Damages Class have been injured in their business and property and are threatened with further injury.

REDACTED

(d) By reason of the foregoing, Defendants and their co-conspirators have entered into agreements in restraint of trade in violation of District of Columbia Code Ann. §§ 28-4501, *et seq.* Accordingly, Plaintiffs and members of the Damages Class seek all forms of relief available under District of Columbia Code Ann. §§ 28-4501, *et seq.*

274. The Defendants and their co-conspirators have entered into an unlawful agreement in restraint of trade in violation of the Iowa Code §§ 553.1, *et seq.*

(a) Defendants' and their co-conspirators' combinations or conspiracies had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout Iowa; (2) Ignition Coils prices were raised, fixed, maintained and stabilized at artificially high levels throughout Iowa; (3) Plaintiffs and members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(b) During the Class Period, Defendants' and their co-conspirators' illegal conduct substantially affected Iowa commerce.

(c) As a direct and proximate result of Defendants' and their co-conspirators' unlawful conduct, Plaintiffs and members of the Damages Class have been injured in their business and property and are threatened with further injury.

(d) By reason of the foregoing, Defendants and their co-conspirators have entered into agreements in restraint of trade in violation of Iowa Code §§ 553.1, *et seq.* Accordingly, Plaintiffs and members of the Damages Class seek all forms of relief available under Iowa Code §§ 553.1, *et seq.*

275. Defendants and their co-conspirators have entered into an unlawful agreement in restraint of trade in violation of the Kansas Statutes Annotated, §§ 50-101, *et seq.*

REDACTED

(a) Defendants' and their co-conspirators' combinations or conspiracies had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout Kansas; (2) Ignition Coils prices were raised, fixed, maintained and stabilized at artificially high levels throughout Kansas; (3) Plaintiffs and members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(b) During the Class Period, Defendants' and their co-conspirators' illegal conduct substantially affected Kansas commerce.

(c) As a direct and proximate result of Defendants' and their co-conspirators' unlawful conduct, Plaintiffs and members of the Damages Class have been injured in their business and property and are threatened with further injury.

(d) By reason of the foregoing, Defendants and their co-conspirators have entered into agreements in restraint of trade in violation of Kansas Stat. Ann. §§ 50-101, *et seq.* Accordingly, Plaintiffs and members of the Damages Class seek all forms of relief available under Kansas Stat. Ann. §§ 50-101, *et seq.*

276. Defendants and their co-conspirators have entered into an unlawful agreement in restraint of trade in violation of the Maine Revised Statutes, Maine Rev. Stat. Ann. 10, §§ 1101, *et seq.*

(a) Defendants' and their co-conspirators' combinations or conspiracies had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout Maine; (2) Ignition Coils prices were raised, fixed, maintained and stabilized at artificially high levels throughout Maine; (3) Plaintiffs and members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of

REDACTED

the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(b) During the Class Period, Defendants' and their co-conspirators' illegal conduct substantially affected Maine commerce.

(c) As a direct and proximate result of Defendants' and their co-conspirators' unlawful conduct, Plaintiffs and members of the Damages Class have been injured in their business and property and are threatened with further injury.

(d) By reason of the foregoing, Defendants and their co-conspirators have entered into agreements in restraint of trade in violation of Maine Rev. Stat. Ann. 10, §§ 1101, *et seq.* Accordingly, Plaintiffs and members of the Damages Class seek all relief available under Maine Rev. Stat. Ann. 10, §§ 1101, *et seq.*

277. Defendants and their co-conspirators have entered into an unlawful agreement in restraint of trade in violation of the Michigan Compiled Laws Annotated §§ 445.771, *et seq.*

(a) Defendants' and their co-conspirators' combinations or conspiracies had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout Michigan; (2) Ignition Coils prices were raised, fixed, maintained and stabilized at artificially high levels throughout Michigan; (3) Plaintiffs and members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(b) During the Class Period, Defendants' and their co-conspirators' illegal conduct substantially affected Michigan commerce.

(c) As a direct and proximate result of Defendants' and their co-conspirators' unlawful conduct, Plaintiffs and members of the Damages Class have been injured in their business and property and are threatened with further injury.

REDACTED

(d) By reason of the foregoing, Defendants and their co-conspirators have entered into agreements in restraint of trade in violation of Michigan Comp. Laws Ann. §§ 445.771, *et seq.* Accordingly, Plaintiffs and members of the Damages Class seek all relief available under Michigan Comp. Laws Ann. §§ 445.771, *et seq.*

278. Defendants and their co-conspirators have entered into an unlawful agreement in restraint of trade in violation of the Minnesota Annotated Statutes §§ 325D.49, *et seq.*

(a) Defendants' and their co-conspirators' combinations or conspiracies had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout Minnesota; (2) Ignition Coils prices were raised, fixed, maintained and stabilized at artificially high levels throughout Minnesota; (3) Plaintiffs and members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(b) During the Class Period, the Defendants' and their co-conspirators' illegal conduct substantially affected Minnesota commerce.

(c) As a direct and proximate result of Defendants' and their co-conspirators' unlawful conduct, Plaintiffs and members of the Damages Class have been injured in their business and property and are threatened with further injury.

(d) By reason of the foregoing, Defendants and their co-conspirators have entered into agreements in restraint of trade in violation of Minnesota Stat. §§ 325D.49, *et seq.* Accordingly, Plaintiffs and members of the Damages Class seek all relief available under Minnesota Stat. §§ 325D.49, *et seq.*

279. Defendants and their co-conspirators have entered into an unlawful agreement in restraint of trade in violation of the Mississippi Code Annotated §§ 75-21-1, *et seq.*

REDACTED

(a) Defendants' and their co-conspirators' combinations or conspiracies had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout Mississippi; (2) Ignition Coils prices were raised, fixed, maintained and stabilized at artificially high levels throughout Mississippi; (3) Plaintiffs and members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(b) During the Class Period, Defendants' and their co-conspirators' illegal conduct substantially affected Mississippi commerce.

(c) As a direct and proximate result of Defendants' and their co-conspirators' unlawful conduct, Plaintiffs and members of the Damages Class have been injured in their business and property and are threatened with further injury.

(d) By reason of the foregoing, Defendants and their co-conspirators have entered into agreements in restraint of trade in violation of Mississippi Code Ann. §§ 75-21-1, *et seq.* Accordingly, Plaintiffs and members of the Damages Class seek all relief available under Mississippi Code Ann. §§ 75-21-1, *et seq.*

280. Defendants and their co-conspirators have entered into an unlawful agreement in restraint of trade in violation of the Nebraska Revised Statutes §§ 59-801, *et seq.*

(a) Defendants' and their co-conspirators' combinations or conspiracies had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout Nebraska; (2) Ignition Coils prices were raised, fixed, maintained and stabilized at artificially high levels throughout Nebraska; (3) Plaintiffs and members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

REDACTED

(b) During the Class Period, Defendants' and their co-conspirators' illegal conduct substantially affected Nebraska commerce.

(c) As a direct and proximate result of Defendants' and their co-conspirators' unlawful conduct, Plaintiffs and members of the Damages Class have been injured in their business and property and are threatened with further injury.

(d) By reason of the foregoing, Defendants and their co-conspirators have entered into agreements in restraint of trade in violation of Nebraska Revised Statutes §§ 59-801, *et seq.* Accordingly, Plaintiffs and members of the Damages Class seek all relief available under Nebraska Revised Statutes §§ 59-801, *et seq.*

281. Defendants and their co-conspirators have entered into an unlawful agreement in restraint of trade in violation of the Nevada Revised Statutes Annotated §§ 598A.010, *et seq.*

(a) Defendants' and their co-conspirators' combinations or conspiracies had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout Nevada; (2) Ignition Coils prices were raised, fixed, maintained and stabilized at artificially high levels throughout Nevada; (3) Plaintiffs and members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(b) During the Class Period, Defendants' and their co-conspirators' illegal conduct substantially affected Nevada commerce.

(c) As a direct and proximate result of Defendants' and their co-conspirators' unlawful conduct, Plaintiffs and members of the Damages Class have been injured in their business and property and are threatened with further injury.

(d) By reason of the foregoing, Defendants and their co-conspirators have

REDACTED

entered into agreements in restraint of trade in violation of Nevada Rev. Stat. Ann. §§ 598A.010, *et seq.* Accordingly, Plaintiffs and members of the Damages Class seek all relief available under Nevada Rev. Stat. Ann. §§ 598A.010, *et seq.*

282. Defendants and their co-conspirators have entered into an unlawful agreement in restraint of trade in violation of the New Hampshire Revised Statutes §§ 356:1, *et seq.*

(a) Defendants' and their co-conspirators' combinations or conspiracies had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout New Hampshire; (2) Ignition Coils prices were raised, fixed, maintained and stabilized at artificially high levels throughout New Hampshire; (3) Plaintiffs and members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(b) During the Class Period, Defendants' and their co-conspirators' illegal conduct substantially affected New Hampshire commerce.

(c) As a direct and proximate result of Defendants' and their co-conspirators' unlawful conduct, Plaintiffs and members of the Damages Class have been injured in their business and property and are threatened with further injury.

(d) By reason of the foregoing, Defendants and their co-conspirators have entered into agreements in restraint of trade in violation of New Hampshire Revised Statutes §§ 356:1, *et seq.* Accordingly, Plaintiffs and members of the Damages Class seek all relief available under New Hampshire Revised Statutes §§ 356:1, *et seq.*

283. Defendants and their co-conspirators have entered into an unlawful agreement in restraint of trade in violation of the New Mexico Statutes Annotated §§ 57-1-1, *et seq.*

REDACTED

(a) Defendants' and their co-conspirators' combinations or conspiracies had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout New Mexico; (2) Ignition Coils prices were raised, fixed, maintained and stabilized at artificially high levels throughout New Mexico; (3) Plaintiffs and members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(b) During the Class Period, Defendants' and their co-conspirators' illegal conduct substantially affected New Mexico commerce.

(c) As a direct and proximate result of Defendants' and their co-conspirators' unlawful conduct, Plaintiffs and members of the Damages Class have been injured in their business and property and are threatened with further injury.

(d) By reason of the foregoing, Defendants and their co-conspirators have entered into agreements in restraint of trade in violation of New Mexico Stat. Ann. §§ 57-1-1, *et seq.* Accordingly, Plaintiffs and members of the Damages Class seek all relief available under New Mexico Stat. Ann. §§ 57-1-1, *et seq.*

284. Defendants and their co-conspirators have entered into an unlawful agreement in restraint of trade in violation of the New York General Business Laws §§ 340, *et seq.*

(a) Defendants' and their co-conspirators' combinations or conspiracies had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout New York; (2) Ignition Coils prices were raised, fixed, maintained and stabilized at artificially high levels throughout New York; (3) Plaintiffs and members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils when

REDACTED

they purchased vehicles containing Ignition Coils, or purchased products that were otherwise of lower quality than they would have been absent the conspirators illegal acts, or were unable to purchase products that they otherwise would have purchased absent the illegal conduct.

(b) During the Class Period, Defendants' and their co-conspirators' illegal conduct substantially affected New York commerce.

(c) As a direct and proximate result of Defendants' and their co-conspirators' unlawful conduct, Plaintiffs and members of the Damages Class have been injured in their business and property and are threatened with further injury.

(d) By reason of the foregoing, Defendants and their co-conspirators have entered into agreements in restraint of trade in violation of the New York Donnelly Act, §§ 340, *et seq.* The conduct set forth above is a *per se* violation of the Act. Accordingly, Plaintiffs and members of the Damages Class seek all relief available under New York Gen. Bus. Law §§ 340, *et seq.*

285. Defendants and their co-conspirators have entered into an unlawful agreement in restraint of trade in violation of the North Carolina General Statutes §§ 75-1, *et seq.*

(a) Defendants' and their conspirators' combinations or conspiracies had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout North Carolina; (2) Ignition Coils prices were raised, fixed, maintained and stabilized at artificially high levels throughout North Carolina; (3) Plaintiffs and members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(b) During the Class Period, Defendants' and their co-conspirators' illegal conduct substantially affected North Carolina commerce.

REDACTED

(c) As a direct and proximate result of the Defendants' and their co-conspirators' unlawful conduct, Plaintiffs and members of the Damages Class have been injured in their business and property and are threatened with further injury.

(d) By reason of the foregoing, Defendants and their co-conspirators have entered into agreements in restraint of trade in violation of North Carolina Gen. Stat. §§ 75-1, *et seq.* Accordingly, Plaintiffs and members of the Damages Class seek all relief available under North Carolina Gen. Stat. §§ 75-1, *et. seq.*

286. Defendants and their co-conspirators have entered into an unlawful agreement in restraint of trade in violation of the North Dakota Century Code §§ 51-08.1-01, *et seq.*

(a) Defendants' and their co-conspirators' combinations or conspiracies had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout North Dakota; (2) Ignition Coils prices were raised, fixed, maintained and stabilized at artificially high levels throughout North Dakota; (3) Plaintiffs and members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(b) During the Class Period, Defendants' and their co-conspirators' illegal conduct had a substantial effect on North Dakota commerce.

(c) As a direct and proximate result of Defendants' and their co-conspirators' unlawful conduct, Plaintiffs and members of the Damages Class have been injured in their business and property and are threatened with further injury.

(d) By reason of the foregoing, Defendants and their co-conspirators have entered into agreements in restraint of trade in violation of North Dakota Cent. Code §§ 51-08.1-01, *et seq.* Accordingly, Plaintiffs and members of the Damages Class seek all relief available

REDACTED

under North Dakota Cent. Code §§ 51-08.1-01, *et seq.*

287. Defendants and their co-conspirators have entered into an unlawful agreement in restraint of trade in violation of the Oregon Revised Statutes §§ 646.705, *et seq.*

(a) Defendants' and their co-conspirators' combinations or conspiracies had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout Oregon; (2) Ignition Coils prices were raised, fixed, maintained and stabilized at artificially high levels throughout Oregon; (3) Plaintiffs and members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(b) During the Class Period, Defendants' and their co-conspirators' illegal conduct had a substantial effect on Oregon commerce.

(c) As a direct and proximate result of Defendants' and their co-conspirators' unlawful conduct, Plaintiffs and members of the Damages Class have been injured in their business and property and are threatened with further injury.

(d) By reason of the foregoing, Defendants and their co-conspirators have entered into agreements in restraint of trade in violation of Oregon Revised Statutes §§ 646.705, *et seq.* Accordingly, Plaintiffs and members of the Damages Class seek all relief available under Oregon Revised Statutes §§ 646.705, *et seq.*

288. Defendants and their co-conspirators have entered into an unlawful agreement in restraint of trade in violation of the South Dakota Codified Laws §§ 37-1-3.1, *et seq.*

(a) Defendants' and their co-conspirators' combinations or conspiracies had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout South Dakota; (2) Ignition Coils prices were raised, fixed, maintained and

REDACTED

stabilized at artificially high levels throughout South Dakota; (3) Plaintiffs and members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(b) During the Class Period, Defendants' and their co-conspirators' illegal conduct had a substantial effect on South Dakota commerce.

(c) As a direct and proximate result of Defendants' and their co-conspirators' unlawful conduct, Plaintiffs and members of the Damages Class have been injured in their business and property and are threatened with further injury.

(d) By reason of the foregoing, Defendants and their co-conspirators have entered into agreements in restraint of trade in violation of South Dakota Codified Laws Ann. §§ 37-1, *et seq.* Accordingly, Plaintiffs and members of the Damages Class seek all relief available under South Dakota Codified Laws Ann. §§ 37-1, *et seq.*

289. Defendants and their co-conspirators have entered into an unlawful agreement in restraint of trade in violation of the Tennessee Code Annotated §§ 47-25-101, *et seq.*

(a) Defendants' and their co-conspirators' combinations or conspiracies had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout Tennessee; (2) Ignition Coils prices were raised, fixed, maintained and stabilized at artificially high levels throughout Tennessee; (3) Plaintiffs and members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(b) During the Class Period, the Defendants' and their co-conspirators' illegal conduct had a substantial effect on Tennessee commerce.

(c) As a direct and proximate result of the Defendants' and their co-

REDACTED

conspirators' unlawful conduct, Plaintiffs and members of the Damages Class have been injured in their business and property and are threatened with further injury.

(d) By reason of the foregoing, Defendants and their co-conspirators have entered into agreements in restraint of trade in violation of Tennessee Code Ann. §§ 47-25-101, *et seq.* Accordingly, Plaintiffs and members of the Damages Class seek all relief available under Tennessee Code Ann. §§ 47-25-101, *et seq.*

290. Defendants and their co-conspirators have entered into an unlawful agreement in restraint of trade in violation of the Utah Code Annotated §§ 76-10-3101, *et seq.*

(a) Defendants' and their co-conspirators' combinations or conspiracies had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout Utah; (2) Ignition Coils prices were raised, fixed, maintained and stabilized at artificially high levels throughout Utah; (3) Plaintiffs and members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(b) During the Class Period, Defendants' and their co-conspirators' illegal conduct had a substantial effect on Utah commerce.

(c) As a direct and proximate result of Defendants' and their co-conspirators' unlawful conduct, Plaintiffs and members of the Damages Class have been injured in their business and property and are threatened with further injury.

(d) By reason of the foregoing, Defendants and their co-conspirators have entered into agreements in restraint of trade in violation of Utah Code Annotated §§ 76-10-3101, *et seq.* Accordingly, Plaintiffs and members of the Damages Class seek all relief available under Utah Code Annotated §§ 76-10-3101, *et seq.*

REDACTED

291. Defendants and their co-conspirators have entered into an unlawful agreement in restraint of trade in violation of the Vermont Stat. Ann. 9 §§ 2453, *et seq.*

(a) Defendants' and their co-conspirators' combinations or conspiracies had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout Vermont; (2) Ignition Coils prices were raised, fixed, maintained and stabilized at artificially high levels throughout Vermont; (3) Plaintiffs and members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(b) During the Class Period, Defendants' and their co-conspirators' illegal conduct had a substantial effect on Vermont commerce.

(c) As a direct and proximate result of Defendants' and their co-conspirators' unlawful conduct, Plaintiffs and members of the Damages Class have been injured in their business and property and are threatened with further injury.

(d) By reason of the foregoing, Defendants and their co-conspirators have entered into agreements in restraint of trade in violation of Vermont Stat. Ann. 9 §§ 2453, *et seq.* Accordingly, Plaintiffs and members of the Damages Class seek all relief available under Vermont Stat. Ann. 9 §§ 2453, *et seq.*

292. Defendants and their co-conspirators have entered into an unlawful agreement in restraint of trade in violation of the West Virginia Code §§ 47-18-1, *et seq.*

(a) Defendants' and their co-conspirators' combinations or conspiracies had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout West Virginia; (2) Ignition Coils prices were raised, fixed, maintained and stabilized at artificially high levels throughout West Virginia; (3) Plaintiffs and members of the

REDACTED

Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(b) During the Class Period, Defendants' and their co-conspirators' illegal conduct had a substantial effect on West Virginia commerce.

(c) As a direct and proximate result of Defendants' and their co-conspirators' unlawful conduct, Plaintiffs and members of the Damages Class have been injured in their business and property and are threatened with further injury.

(d) By reason of the foregoing, Defendants and their co-conspirators have entered into agreements in restraint of trade in violation of West Virginia Code §§ 47-18-1, *et seq.* Accordingly, Plaintiffs and members of the Damages Class seek all relief available under West Virginia Code §§ 47-18-1, *et seq.*

293. Defendants and their co-conspirators have entered into an unlawful agreement in restraint of trade in violation of the Wisconsin Statutes §§ 133.01, *et seq.*

(a) Defendants' and their co-conspirators' combinations or conspiracies had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout Wisconsin; (2) Ignition Coils prices were raised, fixed, maintained and stabilized at artificially high levels throughout Wisconsin; (3) Plaintiffs and members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(b) During the Class Period, Defendants' and their co-conspirators' illegal conduct had a substantial effect on Wisconsin commerce.

(c) As a direct and proximate result of Defendants' and their co-conspirators' unlawful conduct, Plaintiffs and members of the Damages Class have been injured in their

REDACTED

business and property and are threatened with further injury.

(d) By reason of the foregoing, Defendants and their co-conspirators have entered into agreements in restraint of trade in violation of Wisconsin Stat. §§ 133.01, *et seq.* Accordingly, Plaintiffs and members of the Damages Class seek all relief available under Wisconsin Stat. §§ 133.01, *et seq.*

294. Plaintiffs and members of the Damages Class in each of the above states have been injured in their business and property by reason of Defendants' and their co-conspirators' unlawful combination, contract, conspiracy and agreement. Plaintiffs and members of the Damages Class have paid more for Ignition Coils than they otherwise would have paid in the absence of Defendants' and their co-conspirators' unlawful conduct. This injury is of the type the antitrust laws of the above states were designed to prevent and flows from that which makes Defendants' and their co-conspirators' conduct unlawful.

295. In addition, Defendants and their co-conspirators have profited significantly from the aforesaid conspiracy. Defendants' and their co-conspirators' profits derived from their anticompetitive conduct come at the expense and detriment of the Plaintiffs and the members of the Damages Class.

296. Accordingly, Plaintiffs and the members of the Damages Class in each of the above jurisdictions seek damages (including statutory damages where applicable), to be trebled or otherwise increased as permitted by a particular jurisdiction's antitrust law, and costs of suit, including reasonable attorneys' fees, to the extent permitted by the above state laws.

REDACTED

THIRD CLAIM FOR RELIEF
Violation of State Consumer Protection Statutes
(on behalf of Plaintiffs and the Damages Class)

297. Plaintiffs incorporate and reallege, as though fully set forth herein, each and every allegation set forth in the preceding paragraphs of this Complaint.

298. Defendants and their co-conspirators engaged in unfair competition or unfair, unconscionable, deceptive or fraudulent acts or practices in violation of the state consumer protection and unfair competition statutes listed below.

299. Defendants and their co-conspirators have knowingly entered into an unlawful agreement in restraint of trade in violation of the Arkansas Code Annotated, § 4-88-101, *et seq.*

(a) Defendants and their co-conspirators knowingly agreed to, and did in fact, act in restraint of trade or commerce by affecting, fixing, controlling, and/or maintaining at non-competitive and artificially inflated levels, the prices at which Ignition Coils were sold, distributed, or obtained in Arkansas and took efforts to conceal their agreements from Plaintiffs and members of the Damages Class.

(b) The aforementioned conduct on the part of the Defendants and their co-conspirators constituted “unconscionable” and “deceptive” acts or practices in violation of Arkansas Code Annotated, § 4-88-107(a)(10).

(c) Defendants’ and their co-conspirators’ unlawful conduct had the following effects: (1) Ignition Coil price competition was restrained, suppressed, and eliminated throughout Arkansas; (2) Ignition Coil prices were raised, fixed, maintained, and stabilized at artificially high levels throughout Arkansas; (3) Plaintiffs and the members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and the members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coil(s).

REDACTED

(d) During the Class Period, Defendants' and their co-conspirators' illegal conduct substantially affected Arkansas commerce and consumers.

(e) As a direct and proximate result of the unlawful conduct of the Defendants and their co-conspirators, Plaintiff and the members of the Damages Class have been injured in their business and property and are threatened with further injury.

(f) Defendants and their co-conspirators have engaged in unfair competition or unfair or deceptive acts or practices in violation of Arkansas Code Annotated, § 4-88-107(a)(10) and, accordingly, Plaintiffs and the members of the Damages Class seek all relief available under that statute.

300. Defendants and their co-conspirators have engaged in unfair competition or unfair, unconscionable, deceptive or fraudulent acts or practices in violation of California Business and Professions Code § 17200, *et seq.*

(a) During the Class Period, Defendants and their co-conspirators marketed, sold, or distributed Ignition Coil(s) in California, and committed and continue to commit acts of unfair competition, as defined by Sections 17200, *et seq.* of the California Business and Professions Code, by engaging in the acts and practices specified above.

(b) This claim is instituted pursuant to Sections 17203 and 17204 of the California Business and Professions Code, to obtain restitution from these Defendants for acts, as alleged herein, that violated Section 17200 of the California Business and Professions Code, commonly known as the Unfair Competition Law.

(c) Defendants' and their co-conspirators' conduct as alleged herein violated Section 17200. The acts, omissions, misrepresentations, practices and non-disclosures of Defendants and their co-conspirators, as alleged herein, constituted a common, continuous, and

REDACTED

continuing course of conduct of unfair competition by means of unfair, unlawful, and/or fraudulent business acts or practices within the meaning of California Business and Professions Code, Section 17200, *et seq.*, including, but not limited to, the following: (1) the violations of Section 1 of the Sherman Act, as set forth above; (2) the violations of Section 16720, *et seq.*, of the California Business and Professions Code, set forth above;

(d) Defendants' and their co-conspirators' acts, omissions, misrepresentations, practices, and non-disclosures, as described above, whether or not in violation of Section 16720, *et seq.*, of the California Business and Professions Code, and whether or not concerted or independent acts, are otherwise unfair, unconscionable, unlawful or fraudulent;

(e) Defendants' and their co-conspirators' acts or practices are unfair to consumers of Ignition Coils (or vehicles containing them) in the State of California within the meaning of Section 17200, California Business and Professions Code; and

(f) Defendants' and their co-conspirators' acts and practices are fraudulent or deceptive within the meaning of Section 17200 of the California Business and Professions Code.

(g) Plaintiffs and members of the Damages Class are entitled to full restitution and/or disgorgement of all revenues, earnings, profits, compensation, and benefits that may have been obtained by Defendants and their co-conspirators as a result of such business acts or practices.

(h) The illegal conduct alleged herein is continuing and there is no indication that Defendants will not continue such activity into the future.

(i) The unlawful and unfair business practices of Defendants and their co-conspirators, each of them, have caused and continue to cause Plaintiffs and the members of the Damages Class to pay supra-competitive and artificially-inflated prices for Ignition Coils (or

REDACTED

vehicles containing them). Plaintiffs and the members of the Damages Class suffered injury in fact and lost money or property as a result of such unfair competition.

(j) The conduct of Defendants and their co-conspirators as alleged in this Complaint violates Section 17200 of the California Business and Professions Code.

(k) As alleged in this Complaint, Defendants and their co-conspirators have been unjustly enriched as a result of their wrongful conduct and by Defendants' and their co-conspirators' unfair competition. Plaintiffs and the members of the Damages Class are accordingly entitled to equitable relief including restitution and/or disgorgement of all revenues, earnings, profits, compensation, and benefits that may have been obtained by Defendants as a result of such business practices, pursuant to the California Business and Professions Code, Sections 17203 and 17204.

301. Defendants and their co-conspirators have engaged in unfair competition or unfair, unconscionable, or deceptive acts or practices in violation of District of Columbia Code § 28-3901, *et seq.*

(a) Defendants and their co-conspirators agreed to, and did in fact, act in restraint of trade or commerce by affecting, fixing, controlling and/or maintaining, at artificial and/or non-competitive levels, the prices at which Ignition Coils were sold, distributed or obtained in the District of Columbia.

(b) The foregoing conduct constitutes "unlawful trade practices," within the meaning of D.C. Code § 28-3904. Plaintiffs were not aware of Defendants' and their co-conspirators' price-fixing conspiracy and were therefore unaware that they were being unfairly and illegally overcharged. There was a gross disparity of bargaining power between the parties with respect to the price charged by Defendants and their co-conspirators for Ignition Coils.

REDACTED

Defendants and their co-conspirators had the sole power to set that price and Plaintiffs had no power to negotiate a lower price. Moreover, Plaintiffs lacked any meaningful choice in purchasing Ignition Coils because they were unaware of the unlawful overcharge and there was no alternative source of supply through which Plaintiffs could avoid the overcharges.

Defendants' and their co-conspirators' conduct with regard to sales of Ignition Coils, including their illegal conspiracy to secretly fix the price of Ignition Coils at supra-competitive levels and overcharge consumers, was substantively unconscionable because it was one-sided and unfairly benefited Defendants and their co-conspirators at the expense of Plaintiffs and the public.

Defendants and their co-conspirators took grossly unfair advantage of Plaintiffs. The suppression of competition that has resulted from Defendants' and their co-conspirators' conspiracy has ultimately resulted in unconscionably higher prices for consumers so that there was a gross disparity between the price paid and the value received for Ignition Coils.

(c) Defendants' and their co-conspirators' unlawful conduct had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout the District of Columbia; (2) Ignition Coils prices were raised, fixed, maintained, and stabilized at artificially high levels throughout the District of Columbia; (3) Plaintiffs and the Damages Class were deprived of free and open competition; and (4) Plaintiffs and the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(d) As a direct and proximate result of Defendants' and their co-conspirators' conduct, Plaintiffs and members of the Damages Class have been injured and are threatened with further injury. Defendants have engaged in unfair competition or unfair or deceptive acts or practices in violation of District of Columbia Code § 28-3901, *et seq.*, and, accordingly, Plaintiffs and members of the Damages Class seek all relief available under that statute.

REDACTED

302. Defendants and their co-conspirators have engaged in unfair competition or unfair, unconscionable, or deceptive acts or practices in violation of the Florida Deceptive and Unfair Trade Practices Act, Fla. Stat. §§ 501.201, *et seq.*

(a) Defendants' and their co-conspirators' unlawful conduct had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout Florida; (2) Ignition Coils prices were raised, fixed, maintained, and stabilized at artificially high levels throughout Florida; (3) Plaintiffs and members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(b) During the Class Period, Defendants' and their co-conspirators' illegal conduct substantially affected Florida commerce and consumers.

(c) As a direct and proximate result of Defendants' and their co-conspirators' unlawful conduct, Plaintiffs and members of the Damages Class have been injured and are threatened with further injury.

(d) Defendants and their co-conspirators have engaged in unfair competition or unfair or deceptive acts or practices in violation of Florida Stat. § 501.201, *et seq.*, and, accordingly, Plaintiffs and members of the Damages Class seek all relief available under that statute.

303. Defendants and their co-conspirators have engaged in unfair competition or unfair, unconscionable, or deceptive acts or practices in violation of the Hawaii Revised Statutes Annotated §§ 480-1, *et seq.*

(a) Defendants' and their co-conspirators' unlawful conduct had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated

REDACTED

throughout Hawaii; (2) Ignition Coils prices were raised, fixed, maintained, and stabilized at artificially high levels throughout Hawaii; (3) Plaintiffs and members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(b) During the Class Period, the Defendants' and their co-conspirators' illegal conduct substantially affected Hawaii commerce and consumers.

(c) As a direct and proximate result of Defendants' and their co-conspirators' unlawful conduct, Plaintiffs and members of the Damages Class have been injured and are threatened with further injury.

(d) Defendants and their co-conspirators have engaged in unfair competition or unfair or deceptive acts or practices in violation of Hawaii Rev. Stat. § 480, *et seq.*, and, accordingly, Plaintiffs and members of the Damages Class seek all relief available under that statute.

304. Defendants and their co-conspirators have engaged in unfair competition or unfair, unconscionable, or deceptive acts or practices in violation of Mass. G.L. c. 93A, §2.

(a) Defendants and their co-conspirators were engaged in trade or commerce as defined by G.L. c. 93A.

(b) Defendants and their co-conspirators agreed to, and did in fact, act in restraint of trade or commerce in a market which includes Massachusetts, by affecting, fixing, controlling and/or maintaining at artificial and non-competitive levels, the prices at which Ignition Coils were sold, distributed, or obtained in Massachusetts and took efforts to conceal their agreements from Plaintiffs and members of the Damages Class.

(c) Defendants' and their co-conspirators' unlawful conduct had the following

REDACTED

effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout Massachusetts; (2) Ignition Coils prices were raised, fixed, maintained, and stabilized at artificially high levels throughout Massachusetts; (3) Plaintiffs and members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(d) As a direct and proximate result of Defendants' and their co-conspirators' unlawful conduct, Plaintiffs and members of the Damages Class were injured and are threatened with further injury.

(e) Certain of the Defendants and their co-conspirators have or will be served with a demand letter in accordance with G.L. c. 93A, § 9, or, upon information and belief, such service of a demand letter was unnecessary due to the defendant not maintaining a place of business within the Commonwealth of Massachusetts or not keeping assets within the Commonwealth.

(f) By reason of the foregoing, Defendants and their co-conspirators engaged in unfair competition and unfair or deceptive acts or practices, in violation of G.L. c. 93A, §2. Defendants' and their co-conspirators' violations of Chapter 93A were knowing or willful, entitling Plaintiffs and members of the Damages Class to multiple damages.

305. Defendants and their co-conspirators have engaged in unfair competition or unfair, unconscionable, or deceptive acts or practices in violation of the Missouri Merchandising Practices Act, Mo. Rev. Stat. § 407.010, *et. seq.*

(a) Missouri Plaintiff and members of this Damages Class purchased Ignition Coils for personal, family, or household purposes.

(b) Defendants and their co-conspirators engaged in the conduct described

REDACTED

herein in connection with the sale of Ignition Coils in trade or commerce in a market that includes Missouri.

(c) Defendants and their co-conspirators agreed to, and did in fact affect, fix, control, and/or maintain, at artificial and non-competitive levels, the prices at which Ignition Coils were sold, distributed, or obtained in Missouri, which conduct constituted unfair practices in that it was unlawful under federal and state law, violated public policy, was unethical, oppressive and unscrupulous, and caused substantial injury to Plaintiffs and members of the Damages Class.

(d) Defendants and their co-conspirators concealed, suppressed, and omitted to disclose material facts to Plaintiffs and members of the Damages Class concerning Defendants' and their co-conspirators' unlawful activities and artificially inflated prices for Ignition Coils. The concealed, suppressed, and omitted facts would have been important to Plaintiffs and members of the Damages Class as they related to the cost of Ignition Coils they purchased.

(e) Defendants and their co-conspirators misrepresented the real cause of price increases and/or the absence of price reductions in Ignition Coils by making public statements that were not in accord with the facts.

(f) Defendants' and their co-conspirators' statements and conduct concerning the price of Ignition Coils were deceptive as they had the tendency or capacity to mislead Plaintiffs and members of the Damages Class to believe that they were purchasing Ignition Coils at prices established by a free and fair market.

(g) Defendants' and their co-conspirators' unlawful conduct had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated

REDACTED

throughout Missouri; (2) Ignition Coils prices were raised, fixed, maintained, and stabilized at artificially high levels throughout Missouri; (3) Plaintiffs and members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(h) The foregoing acts and practices constituted unlawful practices in violation of the Missouri Merchandising Practices Act.

(i) As a direct and proximate result of the above-described unlawful practices, Plaintiffs and members of the Damages Class suffered ascertainable loss of money or property.

(j) Accordingly, Plaintiffs and members of the Damages Class seek all relief available under Missouri's Merchandising Practices Act, specifically Mo. Rev. Stat. § 407.020, which prohibits "the act, use or employment by any person of any deception, fraud, false pretense, false promise, misrepresentation, unfair practice or the concealment, suppression, or omission of any material fact in connection with the sale or advertisement of any merchandise in trade or commerce..." as further interpreted by the Missouri Code of State Regulations, 15 CSR 60-7.010, *et seq.*, 15 CSR 60-8.010, *et seq.*, and 15 CSR 60-9.010, *et seq.*, and Mo. Rev. Stat. § 407.025, which provides for the relief sought in this count.

306. Defendants and their co-conspirators have engaged in unfair competition or unfair, unconscionable, or deceptive acts or practices in violation of the Montana Unfair Trade Practices and Consumer Protection Act of 1973, Mont. Code, §§ 30-14-101, *et seq.*

(a) Defendants' and their co-conspirators' unlawful conduct had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout Montana; (2) Ignition Coils prices were raised, fixed, maintained, and stabilized at

REDACTED

artificially high levels throughout Montana; (3) Plaintiffs and members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(b) During the Class Period, Defendants' and their co-conspirators' illegal conduct substantially affected Montana commerce and consumers.

(c) As a direct and proximate result of Defendants' and their co-conspirators' unlawful conduct, Plaintiffs and members of the Damages Class have been injured and are threatened with further injury.

(d) Defendants and their co-conspirators have engaged in unfair competition or unfair or deceptive acts or practices in violation of Mont. Code, §§ 30-14-101, *et seq.* and, accordingly, Plaintiffs and members of the Damages Class seek all relief available under that statute.

307. Defendants and their co-conspirators have engaged in unfair competition or unfair, unconscionable, or deceptive acts or practices in violation of the New Mexico Stat. § 57-12-1, *et seq.*

(a) Defendants and their co-conspirators agreed to, and did in fact, act in restraint of trade or commerce by affecting, fixing, controlling and/or maintaining at non-competitive and artificially inflated levels, the prices at which Ignition Coils were sold, distributed or obtained in New Mexico and took efforts to conceal their agreements from Plaintiffs and members of the Damages Class.

(b) The aforementioned conduct on the part of Defendants and their co-conspirators constituted "unconscionable trade practices," in violation of N.M.S.A. Stat. § 57-12-3, in that such conduct, inter alia, resulted in a gross disparity between the value received by

REDACTED

Plaintiffs and the members of the Damages Class and the prices paid by them for Ignition Coils as set forth in N.M.S.A., § 57-12-2E. Plaintiffs were not aware of Defendants' and their co-conspirators' price-fixing conspiracy and were therefore unaware that they were being unfairly and illegally overcharged. There was a gross disparity of bargaining power between the parties with respect to the price charged by Defendants and their co-conspirators for Ignition Coils.

Defendants and their co-conspirators had the sole power to set that price and Plaintiffs had no power to negotiate a lower price. Moreover, Plaintiffs lacked any meaningful choice in purchasing Ignition Coils because they were unaware of the unlawful overcharge and there was no alternative source of supply through which Plaintiffs' could avoid the overcharges.

Defendants' and their co-conspirators' conduct with regard to sales of Ignition Coils, including their illegal conspiracy to secretly fix the price of Ignition Coils at supra-competitive levels and overcharge consumers, was substantively unconscionable because it was one-sided and unfairly benefited Defendants and their co-conspirators at the expense of Plaintiffs and the public.

Defendants and their co-conspirators took grossly unfair advantage of Plaintiffs. The suppression of competition that has resulted from Defendants' and their co-conspirators' conspiracy has ultimately resulted in unconscionably higher prices for consumers so that there was a gross disparity between the price paid and the value received for Ignition Coils.

(c) Defendants' and their co-conspirators' unlawful conduct had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout New Mexico; (2) Ignition Coils prices were raised, fixed, maintained, and stabilized at artificially high levels throughout New Mexico; (3) Plaintiffs and the members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and the members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

REDACTED

(d) During the Class Period, Defendants' and their co-conspirators' illegal conduct substantially affected New Mexico commerce and consumers.

(e) As a direct and proximate result of the unlawful conduct of Defendants and their co-conspirators, Plaintiffs and the members of the Damages Class have been injured and are threatened with further injury.

(f) Defendants and their co-conspirators have engaged in unfair competition or unfair or deceptive acts or practices in violation of New Mexico Stat. § 57-12-1, *et seq.*, and, accordingly, Plaintiffs and the members of the Damages Class seek all relief available under that statute.

308. Defendants and their co-conspirators have engaged in unfair competition or unfair, unconscionable, or deceptive acts or practices in violation of N.Y. Gen. Bus. Law § 349, *et seq.*

(a) Defendants and their co-conspirators agreed to, and did in fact, act in restraint of trade or commerce by affecting, fixing, controlling and/or maintaining, at artificial and non-competitive levels, the prices at which Ignition Coils were sold, distributed or obtained in New York and took efforts to conceal their agreements from Plaintiffs and members of the Damages Class.

(b) Defendants and their co-conspirators made public statements about the prices of Ignition Coils and products containing Ignition Coils that Defendants and their co-conspirators knew would be seen by New York consumers; such statements either omitted material information that rendered the statements that they made materially misleading or affirmatively misrepresented the real cause of price increases for Ignition Coils and products containing Ignition Coils; and Defendants and their co-conspirators alone possessed material

REDACTED

information that was relevant to consumers, but failed to provide the information.

(c) Because of Defendants' and their co-conspirators unlawful trade practices in the State of New York, New York consumer class members who indirectly purchased Ignition Coils were misled to believe that they were paying a fair price for Ignition Coils or the price increases for Ignition Coils were for valid business reasons; and similarly situated consumers were potentially affected by Defendants' and their co-conspirators' conspiracy.

(d) Defendants and their co-conspirators knew that their unlawful trade practices with respect to pricing Ignition Coils would have an impact on New York consumers and not just the Defendants' and their co-conspirators' direct customers.

(e) Defendants and their co-conspirators knew that their unlawful trade practices with respect to pricing Ignition Coils would have a broad impact, causing consumer class members who indirectly purchased Ignition Coils to be injured by paying more for Ignition Coils than they would have paid in the absence of Defendants' and their co-conspirators' unlawful trade acts and practices.

(f) The conduct of the Defendants and their co-conspirators described herein constitutes consumer-oriented deceptive acts or practices within the meaning of N.Y. Gen. Bus. Law § 349, which resulted in consumer injury and broad adverse impact on the public at large, and harmed the public interest of New York State in an honest marketplace in which economic activity is conducted in a competitive manner.

(g) Defendants' and their co-conspirators' unlawful conduct had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout New York; (2) Ignition Coils prices were raised, fixed, maintained, and stabilized at artificially high levels throughout New York; (3) Plaintiffs and members of the Damages Class

REDACTED

were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(h) During the Class Period, Defendants and their co-conspirators marketed, sold, or distributed Ignition Coils in New York, and Defendants' and their co-conspirators' illegal conduct substantially affected New York commerce and consumers.

(i) During the Class Period, each of the Defendants and their co-conspirators named herein, directly, or indirectly and through affiliates they dominated and controlled, manufactured, sold and/or distributed Ignition Coils in New York.

(j) Plaintiffs and members of the Damages Class seek all relief available pursuant to N.Y. Gen. Bus. Law § 349 (h).

309. Defendants and their co-conspirators have engaged in unfair competition or unfair, unconscionable, or deceptive acts or practices in violation of North Carolina Gen. Stat. § 75-1.1, *et seq.*

(a) Defendants and their co-conspirators agreed to, and did in fact, act in restraint of trade or commerce by affecting, fixing, controlling and/or maintaining, at artificial and non-competitive levels, the prices at which Ignition Coils were sold, distributed or obtained in North Carolina and took efforts to conceal their agreements from Plaintiffs and members of the Damages Class.

(b) Defendants' and their co-conspirators' price-fixing conspiracy could not have succeeded absent deceptive conduct by Defendants and their co-conspirators to cover up their illegal acts. Secrecy was integral to the formation, implementation and maintenance of Defendants' and their co-conspirators' price-fixing conspiracy. Defendants and their co-conspirators committed inherently deceptive and self-concealing actions, of which Plaintiffs

REDACTED

could not possibly have been aware. Defendants and their co-conspirators publicly provided pretextual and false justifications regarding their price increases. Defendants' and their co-conspirators' public statements concerning the price of Ignition Coils created the illusion of competitive pricing controlled by market forces rather than supra-competitive pricing driven by Defendants' and their co-conspirators' illegal conspiracy. Moreover, Defendants and their co-conspirators deceptively concealed their unlawful activities by mutually agreeing not to divulge the existence of the conspiracy to outsiders, conducting meetings and conversations in secret, confining the plan to a small group of higher-level officials at each company and avoiding the creation of documents which would reveal the antitrust violations.

(c) The conduct of the Defendants and their co-conspirators described herein constitutes consumer-oriented deceptive acts or practices within the meaning of North Carolina law, which resulted in consumer injury and broad adverse impact on the public at large, and harmed the public interest of North Carolina consumers in an honest marketplace in which economic activity is conducted in a competitive manner.

(d) Defendants' and their co-conspirators' unlawful conduct had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout North Carolina; (2) Ignition Coils prices were raised, fixed, maintained, and stabilized at artificially high levels throughout North Carolina; (3) Plaintiffs and members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(e) During the Class Period, Defendants' and their co-conspirators' marketed, sold, or distributed Ignition Coils in North Carolina, and Defendants' and their co-conspirators' illegal conduct substantially affected North Carolina commerce and consumers.

REDACTED

(f) During the Class Period, each of the Defendants and their co-conspirators named herein, directly, or indirectly and through affiliates they dominated and controlled, manufactured, sold and/or distributed Ignition Coils in North Carolina.

(g) Plaintiffs and members of the Damages Class seek actual damages for their injuries caused by these violations in an amount to be determined at trial and are threatened with further injury. Defendants and their co-conspirators have engaged in unfair competition or unfair or deceptive acts or practices in violation of North Carolina Gen. Stat. § 75-1.1, *et seq.*, and, accordingly, Plaintiffs and members of the Damages Class seek all relief available under that statute.

310. Defendants and their co-conspirators have engaged in unfair competition or unfair, unconscionable, or deceptive acts or practices in violation of the Rhode Island Unfair Trade Practice and Consumer Protection Act, R.I. Gen. Laws §§ 6-13.1-1, *et seq.*

(a) Members of this Damages Class purchased Ignition Coils for personal, family, or household purposes.

(b) Defendants and their co-conspirators agreed to, and did in fact, act in restraint of trade or commerce in a market that includes Rhode Island, by affecting, fixing, controlling, and/or maintaining, at artificial and non-competitive levels, the prices at which Ignition Coils were sold, distributed, or obtained in Rhode Island.

(c) Defendants and their co-conspirators deliberately failed to disclose material facts to Plaintiffs and members of the Damages Class concerning Defendants' and their co-conspirators' unlawful activities and artificially inflated prices for Ignition Coils. Defendants and their co-conspirators owed a duty to disclose such facts, and considering the relative lack of sophistication of the average, non-business consumer, Defendants and their co-conspirators

REDACTED

breached that duty by their silence. Defendants and their co-conspirators misrepresented to all consumers during the Class Period that Defendants' and their co-conspirators' Ignition Coil prices were competitive and fair.

(d) Defendants' and their co-conspirators' unlawful conduct had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout Rhode Island; (2) Ignition Coils prices were raised, fixed, maintained, and stabilized at artificially high levels throughout Rhode Island; (3) Plaintiffs and members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(e) As a direct and proximate result of the Defendants' and their co-conspirators' violations of law, Plaintiffs and members of the Damages Class suffered an ascertainable loss of money or property as a result of Defendants' and their co-conspirators' use or employment of unconscionable and deceptive commercial practices as set forth above. That loss was caused by Defendants' and their co-conspirators' willful and deceptive conduct, as described herein.

(f) Defendants' and their co-conspirators' deception, including their affirmative misrepresentations and omissions concerning the price of Ignition Coils, likely misled all consumers acting reasonably under the circumstances to believe that they were purchasing Ignition Coils at prices set by a free and fair market. Defendants' and their co-conspirators' affirmative misrepresentations and omissions constitute information important to Plaintiffs and members of the Damages Class as they related to the cost of Ignition Coils they purchased.

(g) Defendants and their co-conspirators have engaged in unfair competition

REDACTED

or unfair or deceptive acts or practices in violation of Rhode Island Gen. Laws. § 6-13.1-1, *et seq.*, and, accordingly, Plaintiffs and members of the Damages Class seek all relief available under that statute.

311. Defendants and their co-conspirators have engaged in unfair competition or unfair, unconscionable, or deceptive acts or practices in violation of South Carolina Unfair Trade Practices Act, S.C. Code Ann. §§ 39-5-10, *et seq.*

(a) Defendants' and their co-conspirators' combinations or conspiracies had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout South Carolina; (2) Ignition Coils prices were raised, fixed, maintained, and stabilized at artificially high levels throughout South Carolina; (3) Plaintiffs and members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(b) During the Class Period, Defendants' and their co-conspirators' illegal conduct had a substantial effect on South Carolina commerce.

(c) As a direct and proximate result of Defendants' and their co-conspirators' unlawful conduct, Plaintiffs and members of the Damages Class have been injured in their business and property and are threatened with further injury.

(d) Defendants and their co-conspirators have engaged in unfair competition or unfair or deceptive acts or practices in violation of S.C. Code Ann. §§ 39-5-10, *et seq.*, and, accordingly, Plaintiffs and the members of the Damages Class seek all relief available under that statute.

312. Defendants and their co-conspirators have engaged in unfair competition or unfair, unconscionable, or deceptive acts or practices in violation of 9 Vermont § 2451, *et seq.*

REDACTED

(a) Defendants and their co-conspirators agreed to, and did in fact, act in restraint of trade or commerce in a market that includes Vermont by affecting, fixing, controlling, and/or maintaining, at artificial and non-competitive levels, the prices at which Ignition Coils were sold, distributed, or obtained in Vermont.

(b) Defendants and their co-conspirators deliberately failed to disclose material facts to Plaintiffs and members of the Damages Class concerning their unlawful activities and artificially inflated prices for Ignition Coils. Defendants and their co-conspirators owed a duty to disclose such facts, and considering the relative lack of sophistication of the average, non-business purchaser, Defendants and their co-conspirators breached that duty by their silence. Defendants and their co-conspirators misrepresented to all purchasers during the Class Period that their Ignition Coil prices were competitive and fair.

(c) Defendants' and their co-conspirators' unlawful conduct had the following effects: (1) Ignition Coils price competition was restrained, suppressed, and eliminated throughout Vermont; (2) Ignition Coils prices were raised, fixed, maintained, and stabilized at artificially high levels throughout Vermont; (3) Plaintiffs and members of the Damages Class were deprived of free and open competition; and (4) Plaintiffs and members of the Damages Class paid supra-competitive, artificially inflated prices for Ignition Coils.

(d) As a direct and proximate result of Defendants' and their co-conspirators' violations of law, Plaintiffs and members of the Damages Class suffered an ascertainable loss of money or property as a result of Defendants' and their co-conspirators' use or employment of unconscionable and deceptive commercial practices as set forth above. That loss was caused by the Defendants' and their co-conspirators' willful and deceptive conduct, as described herein.

(e) Defendants' and their co-conspirators' deception, including their

REDACTED

omissions concerning the price of Ignition Coils, likely misled all purchasers acting reasonably under the circumstances to believe that they were purchasing Ignition Coils at prices born by a free and fair market. Defendants' and their co-conspirators' misleading conduct and unconscionable activities constitutes unfair competition or unfair or deceptive acts or practices in violation of 9 Vermont § 2451, *et seq.*, and, accordingly, Plaintiffs and members of the Damages Class seek all relief available under that statute.

FOURTH CLAIM FOR RELIEF
Unjust Enrichment
(on behalf of Plaintiffs and the Damages Class)

313. Plaintiffs incorporate and reallege, as though fully set forth herein, each and every allegation set forth in the preceding paragraphs of this Complaint.

314. Plaintiffs bring this claim under the laws of all states listed in the Second and Third Claims, *supra*.

315. As a result of their unlawful conduct described above, Defendants and their co-conspirators have and will continue to be unjustly enriched. Defendants and their co-conspirators have been unjustly enriched by the receipt of, at a minimum, unlawfully inflated prices and unlawful profits on sales of Ignition Coils.

316. Defendants and their co-conspirators have benefited from their unlawful acts and it would be inequitable for Defendants to be permitted to retain any of the ill-gotten gains resulting from the overpayments made by Plaintiffs of the members of the Damages Class for Ignition Coils.

317. Plaintiffs and the members of the Damages Class are entitled to the amount of Defendants' ill-gotten gains resulting from their unlawful, unjust, and inequitable conduct. Plaintiffs and the members of the Damages Class are entitled to the establishment of a

REDACTED

constructive trust consisting of all ill-gotten gains from which Plaintiffs and the members of the Damages Class may make claims on a pro rata basis.

318. Pursuit of any remedies against the firms from which Plaintiffs and the members of the Damages Class purchased vehicles containing Ignition Coils and Ignition Coils subject to Defendants' and their co-conspirators' conspiracy would have been futile.

PRAYER FOR RELIEF

Accordingly, Plaintiffs respectfully request that:

319. Court determine that this action may be maintained as a class action under Rule 23(a), (b)(2) and (b)(3) of the Federal Rules of Civil Procedure, and direct that reasonable notice of this action, as provided by Rule 23(c)(2) of the Federal Rules of Civil Procedure, be given to each and every member of the Classes;

320. That the unlawful conduct, contract, conspiracy, or combination alleged herein be adjudged and decreed:

(a) An unreasonable restraint of trade or commerce in violation of Section 1 of the Sherman Act;

(b) A *per se* violation of Section 1 of the Sherman Act; and

(c) An unlawful combination, trust, agreement, understanding and/or concert of action in violation of the state antitrust and unfair competition and consumer protection laws as set forth herein.

(d) Acts of unjust enrichment by Defendants as set forth herein.

321. Plaintiffs and the members of the Damages Class recover damages, to the maximum extent allowed under such laws, and that a joint and several judgment in favor of

REDACTED

Plaintiffs and the members of the Damages Class be entered against Defendants in an amount to be trebled to the extent such laws permit;

322. Plaintiffs and the members of the Damages Class recover damages, to the maximum extent allowed by such laws, in the form of restitution and/or disgorgement of profits unlawfully gained from them;

323. Defendants, their affiliates, successors, transferees, assignees and other officers, directors, partners, agents and employees thereof, and all other persons acting or claiming to act on their behalf or in concert with them, be permanently enjoined and restrained from in any manner continuing, maintaining or renewing the conduct, contract, conspiracy, or combination alleged herein, or from entering into any other contract, conspiracy, or combination having a similar purpose or effect, and from adopting or following any practice, plan, program, or device having a similar purpose or effect;

324. Plaintiffs and the members of the Damages Class be awarded restitution, including disgorgement of profits Defendants obtained as a result of their acts of unfair competition and acts of unjust enrichment;

325. Plaintiffs and the members of the Classes be awarded pre- and post- judgment interest as provided by law, and that such interest be awarded at the highest legal rate from and after the date of service of this Complaint;

326. Plaintiffs and the members of the Classes recover their costs of suit, including reasonable attorneys' fees, as provided by law; and

327. Plaintiffs and members of the Classes have such other and further relief as the case may require and the Court may deem just and proper.
